PHOEBE-SERIES

ANTI-GLARE LIGHT

PHOEBE-SERIES

- The die-cast aluminum lamp body effectively resists corrosion and rust, enhances heat dissipation, and improves overall efficiency.
- Designed with IP43 anti-fog protection, it prevents fog and splashes from reaching the light source, making it ideal for use in kitchens and bathrooms.
- Features two optical structures: fixed direct lighting and adjustable oblique lighting for versatile applications.
- Equipped with an ultra-narrow beam angle, it ensures precise illumination from various angles to highlight the subject accurately.

PHOEBE-SERIES ANTI-GLARE LIGHT

- 1 The adjustable lamp body (up to 16°) allows for precise angle customization, making on-site adjustments more convenient.
- 2 Can be paired with a honeycomb grid to minimize glare and prevent excessive light diffusion effectively
- 3 Reflectors in various colors can be selected to match the ceiling and complement the overall design of the space.

This series features a unique ultra-thin shell design, making it ideal for installation in ceilings with limited space and simplifying construction. Its luminous surface ensures even lighting with no dark spots, delivering a highly uniform and consistent light effect. These fixtures are perfect for large, open spaces that require reliable basic lighting

DAFFODILS SERIES

DAFFODILS decorative lights blend seamlessly with nature, designed to enhance outdoor spaces while preserving the ecosystem. Available in sand black and sand white finishes, with varying heights and surface designs, these lights feature hidden LEDs within high-quality acrylic. DAFFODILS provide warm, ambient lighting and natural decor for any outdoor environment

Accentuating the façade, putting the garden into the right light, and ensuring that paths remain visible even in the dark - modern outdoor lights are real all-rounders. Simply select your favorite lights and start planning.

Garden bollard lights are characterized by perfect uniformity of light all around, which is an essential and compact garden bollard family available to choose from.

Garden decorative lights are particularly easy to install with a DC24V transformer. Several lights are available in different shapes, offering various lighting effects in different applications. Two, three, four, or even more, the choice is yours!

DANDELION offers versatile, eco-friendly lighting that highlights greenery and architecture with minimal impact. Inspired by the dandelion shape, its LED core mimics pistils and stamens, casting soft halos to illuminate walls, hedges, and trees. Perfect for enhancing details while evoking timeless emotions.

DANDELION SERIES

STICK SERIES IP65

MUSHROOM SERIES

OLINDIAS SERIES

The OLINDIAS lamp series combines artistic charm with functionality, transforming courtyards into enchanting spaces. More than just lighting, these lamps are art pieces that illuminate while enhancing the garden's beauty. They symbolize a refined lifestyle, attention to detail, and add an elegant ambiance to your outdoor spaces.
