

Transparency in Healthcare Spending

HSA Feature Overview: Deductible Tracker

Health insurance costs are hard to understand

In-network vs. out-of-network designations, coupled with deductible and out-of-pocket costs, make it difficult for consumers to know where they stand.

Lively has partnered with networks of insurance providers to give account holders the option to see precisely what they have paid and what they might have to pay when incurring healthcare expenses.

How it works

1

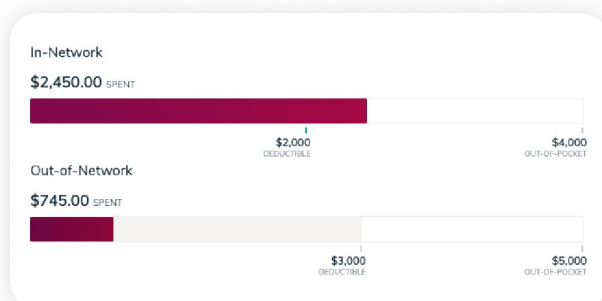

Account holder connects health plan details from their Lively dashboard by selecting their insurance carrier and entering their member ID².

2

Within seconds, account holder can see current health plan spending details, categorized by in-network and out-of-network designations.

3

Data is refreshed daily, so it's easy to track deductible and out-of-pocket spending throughout the year to make informed financial decisions regarding healthcare.

Clarity At-a-Glance

Lively is committed to helping our account holders optimize their healthcare spending. With Deductible Tracker, it's simple for them to see how much they have spent and how much remains for the year.

Once account holders activate this feature, they'll never have to ask "Have I hit my deductible?" again.
