Legislative Assembly of Ontario

Public Inquiry into the Delayed Construction of the Eglinton Crosstown LRT

We, the undersigned, call on the Government of Ontario to launch a public inquiry into the long-delayed delivery of the Eglinton Crosstown LRT.

WHEREAS Metrolinx, an agency of the Government of Ontario, has overseen the planning, procurement, and delivery of the Eglinton Crosstown LRT, a major public transit project intended to improve mobility, reliability, and access across Toronto;

WHEREAS the project has experienced significant delays leading to severe disruptions to residents, businesses, and local institutions along the corridor.

Therefore, we petition the Legislative Assembly of Ontario to:

- Launch a public inquiry into the construction and delivery of Eglinton Crosstown LRT, to establish the causes of the delay as a matter of public record and prevent similar issues from occurring in future public infrastructure projects.

Please print clearly. Original signatures only. Return completed petition to the Office of Stephanie Smyth, MPP for tabling.
