Balu Forge Industries Ltd inducted into NATO Supply Chain for High-Precision Defence Components

- *Certified supplier of mission critical defence components for NATO member states*
- *Expands defence portfolio into global artillery and advanced ammunition platforms*
- *Strengthens India's role in the global defence manufacturing ecosystem*

Mumbai, Thursday, 29th January 2025: Balu Forge Industries Ltd (BSE: 531112 | NSE: BALUFORGE), a precision engineering company engaged in the manufacturing of forged and machined components is pleased to announce its formal induction into the NATO supply chain for critical defence components. This strategic milestone grants the company the mandate to manufacture and supply high-specification artillery shell bodies and complex forged components to NATO member states.

Our selection as a NATO partner is driven by our industry-leading forging technology, which allows us to produce components with exceptional precision. Utilizing advanced closed-die forging processes & our technical edge ensures that our artillery shells & components maintain a level of reliability that is imperative for modern defence system.

Precision is at the centre of our manufacturing philosophy, and our advanced machining centers are equipped to handle the complex geometries by utilizing automated, high-speed multi-axis CNC machines (7 Axis & 11 Axis).

Furthermore, Balu Forge Industries Ltd sets the benchmark for material science innovation through our specialized heat treatment and alloy optimization programs. By refining the molecular structure of our forged components, we enhance their resistance to extreme thermal fluctuations and high-impact stress. This superiority in materials engineering ensures that every component leaving our floor is optimized for the demands of the modern battlefield, setting a new standard for durability and performance within the defence industry.

For our investors, this onboarding marks a pivotal expansion of our global footprint and a diversification of our high margin revenue streams. Membership into the NATO supply base provides a long-term platform for growth, positioning Balu Forge Industries Ltd at the centre of the alliance's industrial revitalization efforts. We are honoured to contribute our technical prowess to the collective security of the alliance while delivering sustainable, long-term value to our shareholders through this prestigious partnership.

Commenting on the development, *Trimaan Chandock, Executive Director, Balu Forge Industries Ltd*, said:

"Our induction into the NATO industrial supply chain is a strong validation of Balu Forge's vision of Make in India for the world. *This milestone reflects the depth of our technical capability and the confidence global defence ecosystems place in Indian manufacturing excellence. This in addition*

Balu Forge Industries Limited
Registered Office: 506, 5th Floor, Imperial Palace,45 Telly Park Road, Andheri (East), Mumbai 400069

to the recent FTA signed with the European Union puts us in a very strong position to establish a strong position in the NATO supply chain.

Our fully integrated model encompassing advanced forging, precision machining, heat treatment, and metallurgical validation under one roof enables us to deliver complex, mission critical components with consistency, scalability, and uncompromising quality. This end-to-end capability, combined with high levels of automation and process control, positions Balu Forge as a supplier of choice for global defence and artillery programs.

We remain committed to expanding India's role in global defence manufacturing by delivering world class forged solutions while creating long term value for our stakeholders through technology led growth and international partnerships."

About Balu Forge Industries:

Balu Forge Industries Limited, founded by Mr. Prehlad Singh Chandock, is a leading Indian precision engineering company delivering forged and machined components across multiple global industries. The company offers a comprehensive product portfolio ranging from 1 kg to 1,500 kg and up to 3 meters in length, supporting diverse applications in automotive, industrial vehicles, earthmoving equipment, wind energy, aerospace, defence, oil and gas, railways, marine, and agriculture. Its operations include fully integrated forging and machining capabilities, with advanced manufacturing facilities in Belgaum, Karnataka, spread over a 46+ acre campus. Equipped with high-capacity hydraulic hammers and forging presses, and supported by a dedicated in-house tool room, metallurgical labs, and CNC machining units, Balu Forge ensures consistent precision and quality. The company's strategy is driven by innovation, with a specialized R&D division focusing on new materials and rapid prototyping. Strategic initiatives emphasize expanding defence production, enhancing automation, and strengthening global partnerships. With a strong focus on operational scalability, customer diversification, and ESG commitments, Balu Forge continues to strengthen its global footprint and industry positioning.
