Vineyard and Winery Certified Organic

Viticulture and Wine Making
All of the vineyard is tended by hand, allowing for careful management of the individual vines from pruning, leaf plucking and shoot-thinning right through to harvesting. The wine is fermented in a small open top fermenters and typically has a 5-7 day pre-ferment cold soak with minimal punch downs throughout fermentation, followed by 5-7 days extended maceration. All parcels are carefully de-stemmed and undergo wild, indigenous, yeast fermentation which encapsulate the Carrick fruit characters. The wine is matured for 11 months in old French oak barrels

Tasting Notes
Named for a gold dredge, The Magnetic is a single vineyard Pinot Noir produced from the Abel clone.

Gold dredges plied the river immediately below the land on which Carrick is now planted. Our gold dredge series celebrates the gold workings around Bannockburn with small parcel wines available only directly from the winery.

Initially showing vibrant red cherry, spice and plum flavours, it has complex tannins and appealing wood integration. Appealing now and with the ability to age well for up to seven or eight years.
