

Metropole Care

Since 2007, the Hotel Metropole Monte-Carlo has stood out through a pioneering commitment to the environment. Today driven by the Metropole Care program, this global vision translates into concrete actions. The main objective is to reduce the carbon footprint of its operations and minimize its impact on the planet.

To achieve this, the Hotel Metropole Monte-Carlo is committed to :

- Complying with environmental legislation
- Continuously improving energy performance
- Promoting biodiversity and the protection of natural spaces
- Raising awareness of sustainable development among guests, staff and suppliers
- Reducing waste production
- Developing its humanitarian and charitable actions
- Continuously improving its management system

To uphold these commitments, the hotel implements a range of initiatives, including:

- Enhanced monitoring of water and energy consumption
- Raising staff awareness and training on eco-friendly practices
- Eco-responsible purchasing policy
- Social commitment and support for associations
- Regular updating of the environmental policy
- Selective sorting, paper reduction, elimination of single-use plastic, fight against food waste

« At the Hotel Metropole Monte-Carlo, our commitment is subtly seen, intensely lived. »

As part of this approach, we invite our guests to experience, according to their desires, eco-responsible experiences throughout their stay.

Over the years, the CSR commitment has established itself as a pillar of the hotel's DNA and culture. Aware of the environmental challenges, the Hotel Metropole Monte-Carlo actively pursues its actions for the planet, with new projects driven by the Metropole Care program.
