EINO AGENTIC DESIGN ALLIANCE

Deliver accuracy and velocity to your design practice.

eino's Agentic Design Alliance delivers your hardware, from radios and antennas to full systems, into eino's AI design agent, so you and your partners can design and quote with accuracy and velocity.

In-building and outdoors | DAS | Public safety | Private cellular | Fixed wireless | IoT | Enterprise Wi-Fi

WHAT THE ALLIANCE DELIVERS

MULTI-PLAYER · AI-NATIVE · MULTI-TECHNOLOGY

For you, the OEM

- Parts modeled free and live in a shared library, with no files to load
- Your hardware in AI auto-design and every BOM
- Your design rules enforced in every partner design
- Design Insights on how your gear is specified

For your channel partners

- Upload a floor plan, get a heatmap and BOM in minutes
- A partner discount on eino, by tier
- Co-branded design reports for your bids
- One live project with your SEs, no file ping-pong

What we ask in return

- Equipment data and a named owner
- A listing on your ecosystem page and portal
- A slot in your partner webinar and newsletter
- A joint story we can tell together

HOW IT WORKS

01
Model.

02
Design.

03
Share.

04
Win.
