- A. EZ belt tension system
- B. Flexible extended engine oil drain
- C. Compressor controls protected by top plate
- D. Independent belt tension system for generator/generator welder
- E. Built in engine vibration isolation pads
- F. Steel pan belt guard for air flow and durability
- G. Solid steel & wire grate belt guard
- H. Full saddle mounting feet for easy mounting and stability

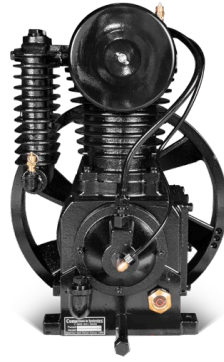

IG Reciprocating Pumps

Now Available with Pressure Lubrication

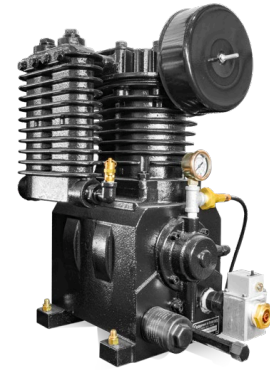

We offer a full line of heavy duty, solid cast iron reciprocating pumps to meet any requirement. They feature some of the most heavy duty components found in piston compressors today, and they reflect our commitment to high quality products and ease of maintenance. Available with pressure lubrication for longer life, smoother operation, and reliability you can count on.

CA1

Pressure Lubricated CA1

CA Series Pump Features

Reciprocating Compressor/ Generator Combination Units

Gas & Diesel Engines from 13-25 HP | 5000 Watt Generators

16-23 CFM @ 175 PSI

Features

- Access to compressor valves without compressor head removal
- Alternator on drive engine
- ASME/CRN certified powder coated steel receiver
- Bearings on both ends of the crank shaft
- Centrifugal unloader
- Critical controls protected by compressor base plate
- Disk and spring valves
- Drive engine on left side for safety
- Fully enclosed belt guard
- Full saddle mounting feet instead of pegged mounting feet
- Heavy-duty air filter
- Heavy-duty two-stage solid cast iron pump
- Industrial-duty engine
- Needle bearings, and inserts on rods
- Pilot valve continuous operation
- Stainless steel flex air lines
- Swedish steel valves
- Torrington needle bearings
- 2-groove B width drive pulley

Model	CFM@175PSI	Tank Size	Engine HP	Engine Start	Length	Width	Height	Weight	Generator Watt	Engine
CI13GEH30-GEN	19	30 Gallon	13	Electric	44	24	42	500	5000	Honda
CI18GEH30-GEN	23	30 Gallon	18	Electric	44	24	44	550	5000	Honda

Note: Units above 14HP require an auxiliary fuel cell. All units are standard tank mount, basemount available.

Reciprocating Compressor/ Welder/Generators

Gas & Diesel Engines from 13-25 HP

5000 Watt Generators | 240 Amp Welders | 16-23 CFM @ 175 PSI

Features

- Access to compressor valves without compressor head removal
- Alternator on drive engine
- ASME/CRN certified powder coated steel receiver
- Bearings on both ends of the crank shaft
- Critical controls protected by compressor base plate
- Disk and spring valves
- Drive engine on left side for safety
- Fully enclosed belt guard
- Full saddle mounting feet instead of pegged mounting feet
- Heavy-duty air filter
- Heavy-duty two-stage solid cast iron pump
- Industrial-duty engine
- Needle bearings, and inserts on rods
- Pilot valve continuous operation
- Swedish steel valves
- Torrington needle bearings
- 2-groove B width drive pulley

Options

- Filter regulator
- Front mount battery
- Engine control extension

Platinum Features

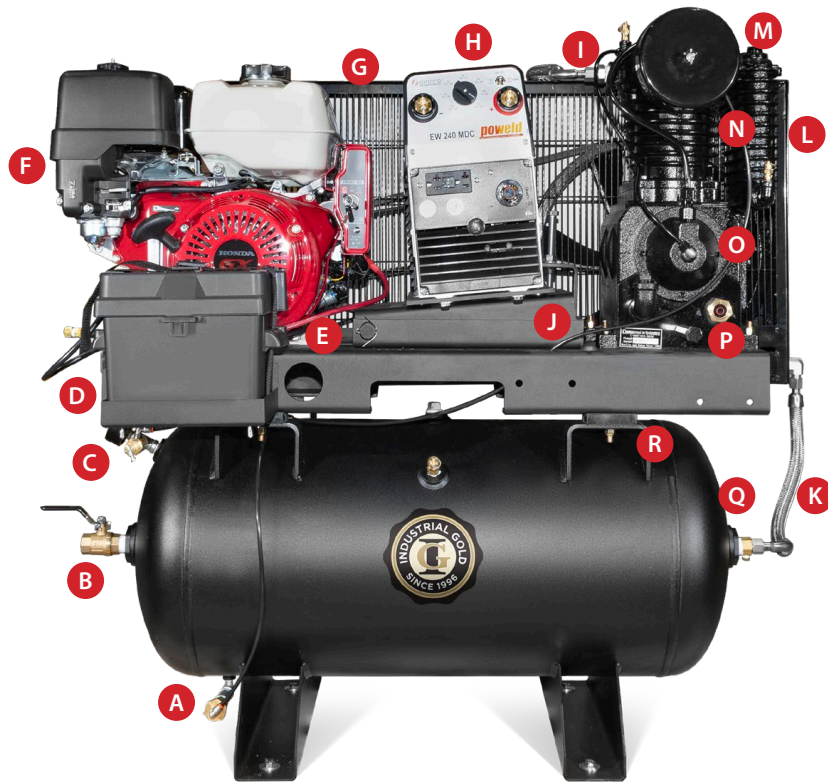

- Automatic tank drain
- Belt guard aftercooler
- Onboard battery with recharge system
- Vibration isolator pads

Model	CFM@175PSI	Tank Size	Engine HP	Engine Start	Length	Width	Height	Weight	Generator Watt	Welder	Engine
CI13GEH33-GW	16	30 Gallon	13	Electric	44	24	40	450	5000	240A	Honda
CI13GEX33-GW	16	30 Gallon	14	Electric	44	24	40	450	5000	240A	CRX
CI13GEH30-GWE	19	30 Gallon	13	Electric	48	26	42	550	5000	240A	Honda
CI18GEH30-GWE	23	30 Gallon	18	Electric	50	26	42	600	5000	240A	Honda

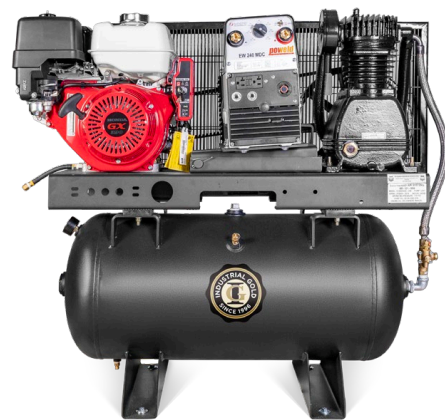

Note: Units above 14 HP require and auxiliary fuel cell. All units are standard tank mount, basemount available.
