Apple juice machine

Quality and freshness at your fingertips

Freshly Pressed Apple Juice, Anytime, Anywhere!

This juicer is an innovative machine that delivers freshly pressed apple juice on demand. With a sleek, compact design, it uses premium-quality apples to create a 100% natural drink with no added sugars or preservatives. Its eco-friendly features include recyclable cups and minimal waste.

Easy to install and maintain, it operates independently while our team manages restocking and servicing. Its convenience and health appeal make it ideal for attracting health-conscious customers and increasing foot traffic.

3 separate engine areas

One-piece

Anti-foam filter

DID YOU KNOW?

In order to make a bottle of juice, you need to grate me first, then press me.

Don't be fooled by appearances! My juice is amber-coloured, but I am perfectly fresh and pure.

Be patient when tasting me. Your patience will be rewarded with an enlightening taste experience.

TECHNICAL FEATURES

- **Cold-pressing technology**
Preserves maximum nutrients, flavour, and freshness, ensuring a high yield and delivering premium-quality apple juice.
- **One-piece**
Easy to clean with a detachable pressing sub-assembly in a single piece.
- **Anti-foam filter**
For ultimate juice without froth.
- **Security mechanism**
Secures the machine in the absence of protective elements (plastron, pressuring sub-assembly, bins, etc.).
- **Patented intelligent pressing system**
The system disposes of fruit residue and skin separately. A detector prevents fruit from becoming jammed: the crown rotates in the opposite direction of the grater to relieve the pressing area.
- Dimensions: 104 H x 50 W x 70 D cm
With cabinet: 180 H x 50 W x 70 D cm
With cabinet + bottle shelf: 180 H x 83 W x 70 D cm
- Weight: 81 kg / + 27 kg (cabinet) / + 8 kg (bottle shelf)
- **Apple size: 70 - 85 mm**
