

WE ARE GXM

Founded in 2008, GXM is a team of innovative technologists dedicated to creating solutions that merge technology and innovation. We tackle challenges in interoperability, integration, and implementation through R&D, rapid prototyping, and infrastructure modernization – **turning innovation into application.**

WHAT WE DO

DEVSECOPS & DEPLOYMENT

Technology Scouting • Secure Environment Setup • Cybersecurity Protocols • CI/CD Pipelines

INTELLIGENT CLOUD & DATA

Cloud & On Prem Solutions • Big Data Modeling & Architecture • Rapid Experimental AI Development

SOFTWARE DEVELOPMENT

Prototype Development • Cross-Platform Development • Software & Data Engineering

DESIGN & COMPLIANCE FRAMEWORKS

UI/UX & CX Design • Human Factors Accessibility & Compliance

INTEGRATION & QA TESTING

Verification & Validation • Integration Architecture QA and Automated Testing

PRODUCT & PROJECT MANAGEMENT

Agile: Scrum/Kanban/SAFe • Fund/Emerging Technology Analysis • Innovation Programming Fluid Operations Framework
