

— YACHT MANAGEMENT PLATFORM

Built For The Sea. Defined By Innovation.

The modular yacht management platform for captains, fleet managers, shipyards, and owners.

— ABOUT AQUATOR

Powering The Future Of Yachting.

Aquator delivers a fully integrated yacht management system covering maintenance, compliance, inventory, crew, and daily operations — tailored to your yacht and fleet.

What Is Our Solution?

A modular, fully integrated platform covering PMS, crew management, charter ops, accounting, refit projects, and ISM compliance — all from one place.

Why Do You Need It?

Running a yacht is complex. Aquator streamlines operations, empowers crew, and provides captains and owners with consistency, clarity, and peace of mind.

How Do We Make It Easy?

Simple onboarding, intuitive tools, ongoing support, data migration, and training — so your crew can focus on running the yacht, not the software.

Get Organized

Plan and coordinate yacht operations, refits, and projects with ease.

Real-Time Info

Access instant updates on tasks, crew, and maintenance anytime.

Stay On Track

Monitor progress across every stage of yacht and fleet management.

Hit Deadlines

Build clear timelines, track milestones, deliver on schedule.

— WHY AQUATOR?

Purpose-Built For Maritime

Designed from the ground up for yacht and fleet operations — not retrofitted from generic project management.

Modular Architecture

Pay only for what your vessel needs. Scale from a 30ft yacht to a 100m+ superyacht fleet.

One of the only yacht management platforms with both **Lloyd's Register** software conformity and **DNV ISO 9001** certification.

— TRUSTED BY THE INDUSTRY

Powering Operations Worldwide.

Aquator is trusted by yacht management companies, shipyards, and private offices across the Mediterranean and beyond.

90+ Yachts on platform	16+ Yacht modules	2 Certifications	8+ Shipyard modules
----------------------------------	-----------------------------	----------------------------	-------------------------------

— CERTIFICATIONS

 <p>Lloyd's Register Conformity Awarded Lloyd's Register's rigorous software conformity assessment for PMS and Hours of Work & Rest — confirming accuracy and compliance with international maritime standards.</p>	 <p>DNV ISO 9001 ISO 9001 Quality Management Certification through DNV, confirming company-wide commitment to quality, consistency, and continuous improvement.</p>
---	---

"We didn't build a generic tool and bolt on maritime features. Every line of Aquator was written for the sea — from compliance frameworks to crew rotation workflows."

Gerben Visser
Founder, Aquator Marine

— PARTNER PROGRAM

Turn Introductions Into Revenue.

Designed for people with strong networks in yachting. You introduce — we handle sales, onboarding, and support. You get paid.

How It Works

- 1 Introduction**
Introduce Aquator to a relevant prospect.
- 2 Discovery & Demo**
Aquator runs a Zoom call or demo.
- 3 Proposal & Follow-Up**
Aquator manages all discussions.
- 4 Client Conversion**
Client signs and comes onboard.
- 5 Commission Paid**
Paid automatically after conversion.

Commission Structure

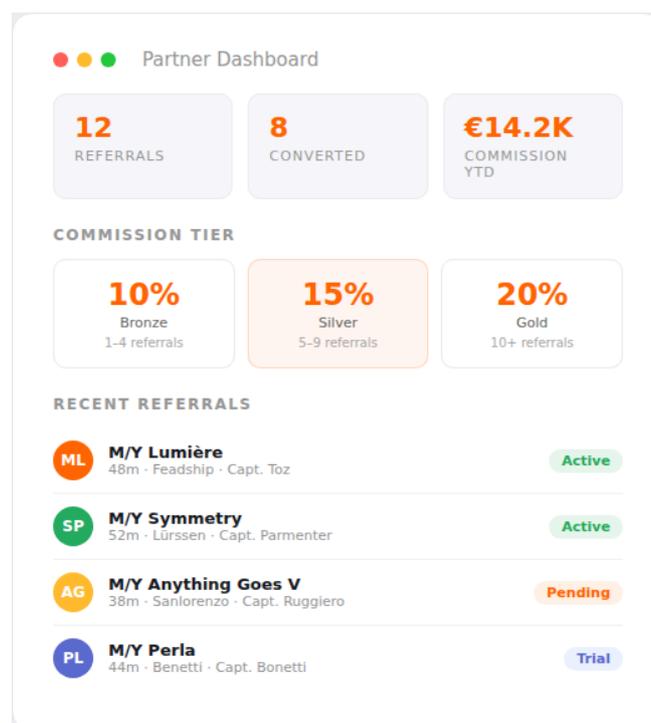

Ideal Partners

- ✓ Captains & senior crew
- ✓ Yacht & fleet managers
- ✓ Shipyards & refit facilities
- ✓ Yacht brokers & consultants
- ✓ Marine service providers

Commission tier increases based on cumulative successful conversions within a rolling 12-month period.

No sales targets · No software expertise required · Fully supported with collateral and demos · Scalable recurring commission
