

# Pathways to Global Excellence at SBR

*A guide to learning In our Secondary School Programme*

Sekolah Bogor Raya Secondary School serves students from Grades 7–12, fostering inquiry-based learning while developing essential 21st-century skills, including collaboration, communication, creativity, and critical thinking. Through a supportive learning environment and personalised guidance, students are encouraged to explore their interests, talents, and aspirations while building the confidence and skills needed for future success.

Students follow internationally recognised academic pathways, progressing from Cambridge Lower Secondary and Cambridge IGCSE programmes before choosing either the International Baccalaureate Diploma Programme (IBDP) or the Global Assessment Certificate (GAC) for Grades 11–12. Supported by comprehensive university preparation and career guidance, learners are empowered to make informed decisions about their future education and careers.

# Learning Environment

SBR Secondary School

Secondary School applies a moving class system, allowing students to learn in subject-specific classrooms designed to support active engagement, independence, and deeper learning. This approach encourages students to take greater responsibility for their learning while benefiting from specialised teaching across different subject areas.

Assessment combines both formative and summative approaches to provide a comprehensive picture of student progress. Formative assessments (ongoing activities such as classwork, discussions, quizzes, and teacher observations) monitor learning throughout the term, while summative assessments (projects, coursework, and formal tests) measure overall achievement. Ongoing classroom learning, coursework, projects, and participation contribute 80% of the final grade, while formal assessments contribute 20%, reflecting our commitment to holistic evaluation rather than exam-only performance.

Students also have opportunities to participate in internationally benchmarked assessments such as ACER and the International Competitions and Assessments for Schools (ICAS), providing valuable insights into their academic progress and achievement.

# Junior High School Curriculum (Grade 7-10)

*SBR Secondary School*

Sekolah Bogor Raya offers internationally recognised academic pathways that prepare students for future success, university readiness, and lifelong learning.

## **Grades 7–8**

### **Cambridge Lower Secondary & Cambridge Checkpoint**

Students follow the Cambridge Lower Secondary curriculum in English, Mathematics, and Science, integrated with the Indonesian National Curriculum. Cambridge Checkpoint assessments provide internationally benchmarked feedback that helps monitor progress and prepare students for future academic pathways while continuing to develop critical thinking, communication, confidence, and independence.

## **Grades 9–10**

### **Cambridge IGCSE**

Students progress to the Cambridge International General Certificate of Secondary Education (IGCSE), a globally recognised qualification for students aged 14–16. Subjects offered include Mathematics, English as a Second Language, ICT, Global Perspectives, Physics, Biology, Chemistry, Bahasa Indonesia, Music, and Visual Arts.

**Learning together, inspiring success**

# Senior High School Curriculum (Grades 10-12)

SBR Secondary School

Choosing Your Pathway. In Grades 11–12, students select one of two internationally recognised pathways based on their interests, strengths, and future goals.

## International Baccalaureate Diploma Programme (IBDP)

Sekolah Bogor Raya has been authorised to offer the IB Diploma Programme since the 2019–2020 academic year. The IBDP is a rigorous pre-university programme that develops academic excellence, independent learning, research skills, and global-mindedness, preparing students for success at leading universities worldwide.

## Global Assessment Certificate (GAC)

The Global Assessment Certificate programme provides an alternative pathway to university preparation, focusing on academic English, critical thinking, research, and independent learning skills. The programme offers a structured transition to higher education, particularly for students planning to study abroad.

*For detailed information about each pathway, please download the Cambridge IGCSE Programme Guide, IB Diploma Programme (IBDP) Guide, and Global Assessment Certificate (GAC) Programme Guide.*
