- ⊗ No Discomfort. On-the-Go Treatment
- ⊗ The Ideal Anti-Pollution & Anti-Toxics Skincare
- ⊗ Perfect for Routine Use or for Special Occasions!

Pure Skin That's

Clearly Perfect!

Ready for perfectly pure skin? Clearly you are... Well, have we got an amazing solution for you! It's called DermaClear, and it's a highly powerful, facial treatment that deeply cleans, hydrates and nourishes your face - taking skin purifying and clarifying to a whole new level. DermaClear is essentially a next-generation skin treatment that combines thorough cleansing and exfoliation with the effective application of nourishing solutions. DermaClear works deeply, yet gently, to cleanse and nourish your skin, offering truly amazing results that you'll instantly see and feel.

DermaClear is a perfect part of your beauty regimens, and also for when you want to look exceptionally great for a special occasion.

Because, you know - it's always the perfect time for perfect skin.

Clean, Clear & Nourished.

DermaClear simultaneously **clarifies, soothes and moisturizes** the skin, infusing it with powerful antioxidants designed to purify and nourish. Research has shown that pollutants, toxins and chemicals in the urban environment can damage the skin, while the extensive use of makeup products in the selfie age also clogs and ages the skin. DermaClear has the solution. The system's unique 360° rotating tip and powerful suction action enable a **deep cleansing** process and extraction of impurities from your face. It operates in a complete circular motion, enabling a much more **efficient penetration** of moisturizing solutions and antioxidants, so that your skin gets the important nourishment it needs from the inside. Made of flexible silicone material, the applicator is soft and flexible and feels pleasant on your skin. The results are amazing and you'll instantly look – and feel – fresh and fabulous!

There's no downtime, no discomfort, and no irritation. Your skin will look as good as it feels, and so will you! Once you've tried DermaClear, you'll clearly notice the difference... (and don't be surprised if other people notice it too!)

The DermaClear Regimen: 3-2-1 Beauty!

DermaClear offers a 3 step regimen, with designated solutions paired to each step:

01 Extracts and Exfoliates

Dead skin removal and extraction using **DermaClear EXFO**, a water soluble exfoliating solution with Alpha hydroxy acid (AHA), reveals the skin's healthy surface.

02 Dislodges and Cleanses

Deep cleaning suction loosens dirt from deep within the skin, allowing nourishment and hydrating solutions to be absorbed effectively. **DermaClear CLEANSE**, a fat soluble Salicylic acid (BHA), is used to deeply remove impurities, without irritation.

03 Conditions and Hydrates

Nourishing solutions are delivered into the skin using a rotating tip, to ensure optimal penetration. **DermaClear HYDRATE**, a hydro essence nutritional serum, with a high concentration of moisture and antioxidants, is used to protect, hydrate, and deliver beneficial antioxidants into the skin, leaving it nourished and ready for any following treatment.
