

# VERIFICATION OF CONFORMITY

This verification of conformity is based on the test reports of the materials, parts, sub-assemblies and products analysis, and the test result(s) has been found to comply with the relevant harmonized standard(s) to the directive(s) at the time the tests were carried out.

The manufacturer could also sign a DoC to imply the compliance and affix CE marking on its product if the product complies with all CE marking directives which it is in. The manufacturer should draw up and keep the documentation to coordinate with the latest directive(s), other additional directive(s) and local law(s).
