Rescue 3 International - WRT Pro award	Signed/Print approved Rescue 3 course provider if completed as part of an IRGT course:
As part of the IRGT program participants may have the opportunity to gain additional certification by Rescue 3 International. This skill table acknowledges that this certification was included in this course content but is not evidence itself of this award. Participants will gain separate certification to evidence this from Rescue 3 International / Europe.	Signed:
	Print:

On completion of this course participants are individually assessed and graded for guide competency on the river, according to the International Scale of River Difficulty (Class I- VI) to ensure they can safely pursue the next appropriate employment or learning opportunity on course completion. Participants will be certified by IRGT Training Directors on this basis at the end of the course.

This participant has been assessed competent to guide on the following grade/class of water having been assessed on all of the above required skills:	Grade of water:
---	-----------------
