USAGE RATE

Apply 10 ounces in-furrow at planting with a minimum of 3 gallons of water. When applying with pop-up fertilizers, use at least 2 gallons of water in addition to fertilizer.

STORAGE INFORMATION

Store product in a temperature-controlled location at or above 45°F and below 150°F. Keep opened bottles closed tightly and out of direct sunlight. Expires 2-years from the date of manufacture printed on label.

CAUTION

Do not blow air into the tank to agitate, as this could destroy the microbial population. Do not use with fungicides except for Phosphite fungicides.

NOTICE TO BUYER

The information contained on this label is believed to be accurate, reliable, and reasonably fit for the purposes stated on the label, and when used under normal use conditions in accordance with the label directions.

DIRECTIONS FOR USE

Shake thoroughly before use. Product can be applied with water and/or fertilizers. When mixing into planter tanks: Fill tank 2/3 full of water and/or fertilizer, add Activ8-IF, then fill the rest of the tank. Note: When using sugars, carbon, micronutrients, or pesticides, add these just prior to filling tank to capacity. The active microbial lifespan is 72-96 hours.

After packaging, transporting, and storing, it is not uncommon for a biofilm to develop. Shake thoroughly or simply screen the material if desired & continue with application.
