What our customers have to say:

"We're thrilled to see how quickly Policy Decisions Evolution has transformed the way we operate. The platform has enabled us to simplify and accelerate our policy processes, giving our teams and agents the flexibility and speed they need to deliver exceptional service to customers nationwide. It's a critical step forward in our strategy to modernize and revolutionize our operational excellence and outpace our competitors."

Top 4 reasons customers choose Insurity's Policy Decisions...

1. Process large policies quickly

- Import 5K+ vehicles or locations in one policy at the same time
- Import spreadsheet capability to underwrite and issue large policies faster without manual data entry and consistency errors

2. Ensure regulatory compliance

- Eliminate costly regulatory tracking systems and complex implementation efforts with fully managed bureau changes
- Stay informed of regulatory changes with the latest bureau content delivered straight into your rates, rules, and forms

3. Apply policy changes easily

- Add policy changes easily with industry-leading out-of-sequence support
- Eliminate manual recalculations when policy changes occur out of sequence, regardless of transaction date

4. Reduce your total cost of ownership

- Save 50% on total cost compared to other policy administration systems
- Maximize profitability with integrated regulatory compliance
