increase in auditor efficiency

Drive operational efficiency with intuitive workflows

What customers are saying:

"We've seen a transformative shift in how we manage our audit processes with integrating the Payroll Validator tool. The Payroll Validator tool can instantly pull relevant audit data from extensive PDF reports directly into our Field Audit Tool, saving at least 50% of our auditors' time."

John Coffaro
Premium Audit Manager

Insurity Premium Audit's Payroll Validator empowers you to...

Increase auditor efficiency

- Save time and streamline audits by automatically pulling payroll data directly into your auditors' worksheets
- Pull in reports from payroll services like the Master Control Report, Payroll Summary Report, Employee Earnings Reports, and more

Minimize premium leakage

- Ensure accurate payroll data by pulling payroll reports and quarterly 941 tax documents
- Reduce fraud by connecting to 130+ payroll providers with secure, real-time APIs

Improve the policyholder experience

- Provide a seamless payroll audit experience for your policyholders
- Enable your policyholders to pull in their payroll data in minutes with secure credentials

Maintain compliance

- Meet state and industry standards for Workers Compensation lines by attaching payroll and tax documents
- Keep track of final premium statements from carriers by easily compiling all audit records
