

Pro Suite

Run your entire MGA on one platform at a lower total cost than stitching systems together

40%

Lower total cost of ownership

65%

Less time billing, tracking payments, and managing commissions

45%

Less time issuing and managing policies

Reduce the manual work slowing down your business

- Cut policy processing time by **45%**
- Cut billing & commission work by **65%**
- Process new business **25% faster with fewer steps and no system handoffs**

What Pro Suite changes for your business:

Stop paying for multiple systems to run one business

- Replace agency management, policy, billing, and accounting systems with one platform, eliminating integration work, vendor overlap, and ongoing maintenance

We grow with you as your business gets more complex

- Add programs, partners, and producers without changing systems or increasing operational overhead
- Support complex commission structures and distribution models easily
- Operate both admitted and non-admitted lines of business on a single platform

All data and decisions connected in one workflow

- AI-powered reporting and dashboards help you see policies, cash flow, commissions, and performance in real time with no gaps between production and financials

Handle complexity without creating more of it

- Eliminate rework, delays, and reconciliation caused by system gaps and handoffs
- One system of record across underwriting, operations, distribution, and finance

Operate with real-time financial control

- Track commissions, cash, and financials in real time with built-in accounting and eliminate external systems or spreadsheets
