Policy Decisions

Drive growth with an integrated policy admin system designed for regulatory management and large schedules

20%	25%	35%	50%
Less time spent on compliance	Increase in DWP from new lines	Faster quoting	Lower total cost of ownership

"We're thrilled to see how quickly Policy Decisions Evolution has transformed the way we operate. The platform has enabled us to simplify and accelerate our policy processes, giving our teams & agents the flexibility & speed they need to deliver exceptional service to customers nationwide.

It's a critical step forward in our strategy to modernize and outpace our competitors."

Why customers choose Policy Decisions:

Process large policies quickly

- Import 5K+ vehicles or locations in one policy at the same time
- Import spreadsheet capability to underwrite and issue large policies faster without manual data entry and consistency errors

Ensure regulatory compliance

- Eliminate costly regulatory tracking systems and complex implementation efforts with fully managed bureau changes
- Stay informed of regulatory changes with the latest bureau content delivered straight into your rates, rules, and forms

Apply policy changes easily

- Add policy changes easily with industry-leading out-of-sequence support
- Eliminate manual recalculations when policy changes occur out of sequence, regardless of transaction date

Reduce your total cost of ownership

- Save 50% on total cost compared to other policy administration systems
- Maximize profitability with integrated regulatory compliance
