

Coding with

AI

Discover how natural language can become your programming language and **help you turn ideas into app and website.**

AI Tools Covered:

 **Base44**

 **Claude**

 **manus**

Build a app that feels clean, modern & slightly playful. The app is an AI productivity assistant that helps users organise tasks and ideas.

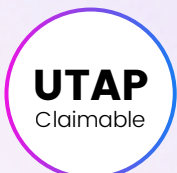

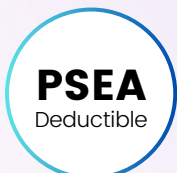

Portfolio

Task Manager

Planner

Funding Support Available

Designed for beginners with no coding background.

WORKSHOP OUTLINE

CODING WITH AI

Digital Productivity & AI Possibilities

- Discover how AI is transforming the way people build digital apps
- Understand how simple apps and websites can improve everyday tasks and workflows
- Explore how AI can help anyone create digital apps without coding experience

Designing Your Own App with AI

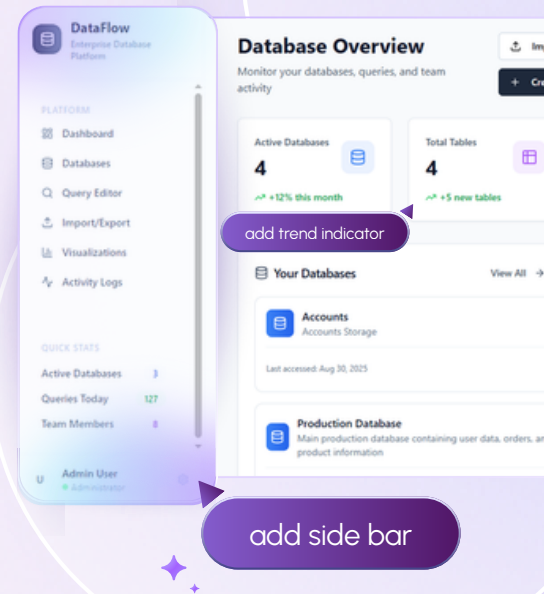

- Turn everyday problems or ideas into simple app concepts.
- Learn how to describe your idea clearly so AI can help build it.
- Plan the basic layout and user flow of your app in a simple, visual way.

Building Your Own App with AI

- Use AI prompts to generate code, layouts and app features
- Develop a simple interactive website or app prototype using AI-supported tools
- Experience how AI can handle the complex coding while you focus on your idea.

Usability Testing & Productivity Improvement

- Try out your app and see how it works in real situations.
- Identify simple ways to improve usability and user experience.
- Refine your app so it becomes clearer, more useful, and more efficient.
