

RoHS Compliance Declaration

Date: May 16, 2023

Dear valued Min-E-Con customer,

Min-E-Con is dedicated to serving you by providing high quality micro miniature connector solutions that meet environmental regulations, including EU RoHS Directive 2011/65/EU and EU RoHS 2015/863/EU. We are providing you with the following information to assist you in meeting your environmental policies and procedures.

Min-E-Con has been producing parts that are RoHS compliant for the last several years. A majority of Min-E-Con products are RoHS compliant. All Min-E-Con products that are compliant with the RoHS Directive (EU Directive 2011/65/EU and subsequent amendments) are shipped with a Certification of Conformance (Document no. F 025Q H) to certify that the substances restricted by the EU Directive 2011/65/EU and subsequent amendments of the European Parliament are not contained in a finished product above threshold limits stated below unless the restrictive substance is subject of an exemption contained in the RoHS Directive. Min-E-Con cannot guarantee that inventory held by distributors or others third parties is RoHS compliant.

Substances	Maximum Limit (ppm)(1)
Cadmium (Cd)	100
Lead (Pb)	1000
Mercury (Hg)	1000
Hexavalent chromium (Cr6+)	1000
Polybrominated biphenyls (PBB)	1000
Polybrominated diphenyl ethers (PBDE)	1000
Bis(2-ethylhexyl) phthalate (DEHP)	1000
Butyl benzyl phthalate (BBP)	1000
Dibutyl phthalate (DBP)	1000
Diisobutyl phthalate (DIBP)	1000

Note: (1) Maximum limit does not apply to applications for which exemptions have been granted by the EU RoHS directive Recast.

Certain customers require parts that are not RoHS compliant such as but not limited to military applications. Min-E-Con produces these parts, but their manufacturing, storage and handling is completely segregated from the RoHS compliant parts to minimize contamination of the RoHS compliant products.

If there are any questions, please contact your Min-E-Con Account Manager.

Francisco Salas, Quality Manager
