Birkbeck
UNIVERSITY OF LONDON

Birkbeck Bengaluru

Birkbeck, University of London - Bengaluru is approved by the University Grants Commission (UGC), India.

Start Your Global Career Without Studying Abroad

A globally ranked University of London degree, global career opportunities, and international exposure — at a fraction of the cost of studying overseas.

Birkbeck brings a University of London degree to Bengaluru, giving students access to internationally recognised education without the cost, visa uncertainty or relocation challenges of studying abroad.

Students graduate with a qualification awarded by the University of London, a globally respected institution consistently ranked among the world's leading universities.

Birkbeck Campus Bengaluru, India

Shri Vineet Joshi, *Chairperson, UGC and Secretary, Department of Higher Education, Ministry of Education with*
Sally Wheeler, *Vice-Chancellor Birkbeck, University of London at the University Grants Commission (UGC) signing ceremony in Bengaluru.*

This degree is recognised by employers worldwide and supports international postgraduate study pathways.

Unlike traditional learning approaches, Birkbeck programmes emphasise practical skill development, analytical thinking and real-world business application. Students develop the capabilities required to succeed in multinational organisations, global capability centres and internationally focused industries.

By studying in Bengaluru, students gain exposure to one of the fastest growing global business ecosystems while building internationally transferable skills aligned to modern careers.

Consistently ranked in the top 2% globally

Is Birkbeck right for you?

Birkbeck Bengaluru is designed for ambitious students seeking international career opportunities and globally recognised qualifications, without the cost and uncertainty of studying overseas.

Ideal for students who:

- Want a UK/Global degree but are budget conscious
- Prefer to avoid visa uncertainty
- Are considering studying abroad but want to begin in India
- Want stronger career positioning in multinational companies
- Are motivated by global career pathways
- Want practical, career-focused learning rather than theoretical-only study
- Have strong academic ability and English proficiency

Students benefit from internationally benchmarked teaching that prepares them for careers in consulting, technology, analytics, finance and global business environments.

Graduate salary potential

Graduates from business and analytics degrees commonly progress into roles aligned with global salary benchmarks.

Salary ranges are indicative and vary by employer, industry and experience level.

Graduates develop analytical capability, strategic thinking and global business awareness valued by multinational employers

A University of London degree

Graduate with a qualification awarded by the **University of London,** one of the world's most respected academic institutions.

Students benefit from global academic standards that ensure their education meets internationally recognised benchmarks. The curriculum is research-informed, combining academic insight with practical relevance for modern business environments. Graduates earn an internationally recognised degree that is valued by employers and universities worldwide.

You graduate with the **same qualification as students studying in London.**

Study where business happens

- Bengaluru is home to one of the world's fastest-growing technology and business ecosystems.
- Global companies operate here across technology, consulting, finance and digital industries.
- Studying here means learning business **inside a real innovation economy.**

Degrees designed for global employers

Birkbeck programmes combine academic rigour with practical business knowledge. Students develop the capabilities valued by global employers, including strategic thinking, strong data and analytical skills, and a clear understanding of international business environments. They learn how to interpret evidence, analyse complex problems and apply insight to real-world decision making. This combination prepares graduates to contribute confidently within modern, data-driven organisations.

This prepares graduates for careers in consulting, technology, analytics and multinational organisations.

Preparing graduates for global careers

Birkbeck programmes help students develop the knowledge and skills required by international employers.

Students gain analytical and strategic capabilities that help them approach complex business challenges with confidence. Developing an understanding of global markets and how organisations operate across international contexts while being exposed to multinational business environments that reflect the realities of modern global commerce.

Graduates are well positioned to pursue careers across consulting, technology, finance and global business sectors.

Bengaluru campus

Our campus is located in **Whitefield, Bengaluru**, one of India's most dynamic business corridors. Multinational companies operate here daily, global capability centres are expanding, and talent and innovation converge in a rapidly growing economic hub.

Birkbeck's decision to establish a campus in Bengaluru is deliberate. It places academic study within a live economic environment where global business, technology and innovation are actively shaping the future.

At Birkbeck, you are not learning about business from a distance. You are studying within the ecosystem itself, with proximity to leading multinational organisations and access to a growing employment market where learning is informed by real business environments.
