

One audit finding becomes a public record. Governance *prevents findings.*

CJIS compliance, public records governance, disaster recovery for critical services, and citizen portal security. Public accountability requires infrastructure that's documented, defensible, and audit-ready at all times.

Zero

Data Breaches

100%

Audit-Ready, Every Quarter

Zero

Audit Findings

Real outcomes. Built specific to *you.*

CJIS & Regulatory Compliance

Criminal justice information security, public records governance, and state-level regulatory alignment — built into your infrastructure as a permanent control layer.

Citizen Data Protection

Encryption, access controls, secure portals, and breach notification readiness protecting the public data your agency is entrusted to safeguard.

Accountable Governance

Named vCIO. Monthly executive reporting. Quarterly strategic reviews. Every decision documented, every gap on a roadmap, every dollar accounted for.

Public trust requires infrastructure your leadership can answer for.

Three steps. One disciplined *framework.*

1

Executive Strategy Session

A complimentary 30-minute conversation about your compliance posture, audit readiness, and infrastructure gaps.

Free · No obligation

2

Technology Governance Assessment

A deep-dive into your operations: CJIS gap analysis, risk scoring, and a prioritized 12-month governance roadmap.

Fee credits toward engagement

3

Governed Operations + SBR

Continuous governance, quarterly strategic reviews, and a posture that keeps audit findings at zero.

Ongoing · Strategic partnership

One conversation could change how your agency *operates.*
