

# Federal contracts now require CMMC certification. Do you qualify?

BIM coordination, large file management, multi-site collaboration, and increasingly strict compliance requirements. Your infrastructure needs to scale with project complexity — not hold it back. The question is whether your IT provider understands that.

## Real outcomes. Built specific to *you*.

### CMMC & Compliance

Gap analysis and remediation for CMMC, ITAR, and client-imposed security requirements. Structured controls that keep you qualified for federal and defense contracts.

### Project-Scale Infrastructure

BIM coordination, large file transfer governance, multi-site networking, and cloud collaboration platforms — managed for performance, not just uptime.

### Strategic Governance

Named vCIO. Monthly executive reporting. Quarterly strategic reviews. Technology roadmaps aligned to your project pipeline and growth trajectory.

— Your infrastructure should scale with your projects — not limit them. —

## Three steps. One disciplined *framework*.

1

### Executive Strategy Session

A complimentary 30-minute conversation about your compliance requirements, project infrastructure, and growth goals.

Free · No obligation

2

### Technology Governance Assessment

A deep-dive into your operations: CMMC readiness, infrastructure performance review, and a prioritized 12-month roadmap.

Fee credits toward engagement

3

### Governed Operations + SBR

Continuous governance, quarterly strategic reviews, and infrastructure that evolves with your project pipeline.

Ongoing · Strategic partnership

## One conversation could change how your firm *operates*.
