

Level 5 Certificate in Leadership & Team Skills

Centered on teams, collaboration, adaptation to change, and the evolving work landscape, this qualification caters to middle and senior managers actively engaged in refining their skills. This course aims to enhance expertise, elevate individual and organisational performance, foster an understanding of and contribution to a positive organisational culture, and foster the ability to innovate and implement change.

Develop existing and aspiring team leaders' skills in effective leadership, personal awareness, and collaborative working, by bringing to life the modules of the ILM. A residential element is incorporated to provide authentic and practical opportunities to develop skills in a safe environment and relate them to the workplace, bringing leadership competencies to life.

What you can achieve

Becoming an Effective Leader:

Develop knowledge and understanding of effective leadership as required by a practising or potential middle manager.

Developing and Leading Teams to Achieve Organisational Goals and Objectives:

Develop understanding and ability in developing and leading teams, as required by a practising or potential middle manager.
