PRODUCT QUALITIES

What makes EDTEX Automation Stick ?

Empowering University Automation for 2035

EDTEX Cloud

Our SaaS Solutions for Programme and Placement Offices have been extensively used in real-time environments by thousands of users. Product Workbenches are deployed on the EDTEX Cloud with dedicated tenets for each Client and are scalable as per the number of users .

Consulting Academic Process

Universities are not focused on the technology itself; they pursue technology to tackle operational and digital transformation challenges.EDTEX helps envision a customer journey by consulting and implementing solutions to effectively resolve critical process pain points.

Support Systems

A dedicated support system is essential for successfully deploying Student Success & Process automation solutions. Technical workshops, user power-guides, email, live chat, and video conferencing provide on-demand support during onboarding and active solution usage.

Security & Privacy

Customer data is safeguarded using industry-leading security practices, ensuring compliance with regulatory standards such as EU GDPR and the Digital Personal Data Protection Act of 2023 in India. We sign specific Data Non Disclosure Agreement (NDA) with each of our Client.

System Integrations

EDTEX platforms have seamlessly integrated data transfer according to custom specifications with Oracle ERP, SAP ERP, Ellucian and Anthology Student platforms through API integration. User logins are also supported with SSO Gmail and Microsoft email accounts.
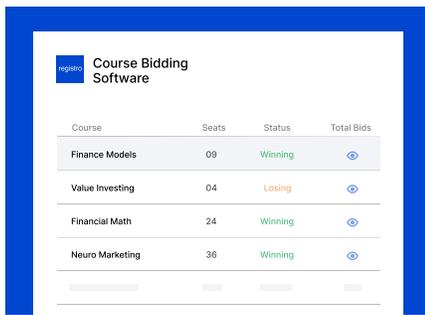

Analytics

The days of process operations data being confined within disconnected IT systems of various functional offices are over. EDTEX SaaS facilitates the extraction of detailed data in tailored reports and dashboards for analysis and data-driven decision-making.
