

Introducing A Scalable Leadership Development **Experience.**

# WiredU

At **WiredU**, we believe electrical contractors win by developing a future-ready workforce. We develop leaders at every level with practical, job-ready training that improves performance on the jobsite and in the office. As industry pressures rise, every contractor must ask whether their team is positioned to adapt, grow, and lead.

## QUESTIONS FOR EC **DECISION-MAKERS**

- Are your foremen and PMs consistently trained to lead and communicate?
- Are planning gaps or communication issues impacting profitability?
- Do you have a measurable pipeline of future leaders?
- Are your teams ready for rapidly evolving digital tools?
- Is burnout affecting morale, safety, or retention?

If any answer is **yes**, WiredU is your next strategic advantage.

**COMING 2026** — Limited Seats Available. Secure Yours Now & Unlock Your Team's Full Potential.

**WiredU** - The premier Learning Management Platform, designed specifically for the electrical industry. Our thoughtfully curated learning paths and vast course library are direct sources for leaders at every level.

## Our 2026 Learning Tracks:

- **Next Up** - Prepare emerging leaders with essential skills in communication, decision-making, problem-solving, and stress management to build confidence, self-awareness, and readiness for future leadership roles.
- **Foreman** - Equip foremen with practical tools for productivity, planning, organization, and communication while strengthening resilience and people skills to lead crews effectively every day.
- **General Foreman** - Develop leaders who manage multiple teams through structured planning, coordination, workflow oversight, and quality control, ensuring work is completed correctly, safely, and on schedule.
- **Superintendent** - Strengthen leaders overseeing large or multiple projects with strategic planning, project execution, resource allocation, and communication skills to consistently meet company goals and client expectations.
- **Project Management** - Build PM skills in schedules, budgets, documentation, field support, communication, and risk mitigation to coordinate project elements and ensure successful project outcomes.
- **Executives** - Support executives with development in strategic planning, leadership routines, decision-making, and wellness to help them step out of daily operations and inspire organizational performance.

### Why WiredU:
