

Partnering for Shelter Animals

Dear Fourth Grade Families,

In our current English Language Arts unit, our fourth graders have been reading the heartwarming novel *Love That Dog* and exploring the power of poetry. Inspired by the main character's deep connection to his pet, our students are taking what they've learned in the classroom and using it to make a real-world impact on our community.

This year, fourth grade is partnering with **Animal Care Centers of NYC (ACC)** to support shelter animals and help end animal homelessness across the city. To celebrate their learning, our students are hosting a special school assembly on therapy dogs and launching a grade-wide fundraiser.

Our Goal: Raise \$500 for ACC

Building on the incredible success of last year's third-grade service project, we are aiming to reach \$500 to support local rescue efforts, medical care, and adoption services for animals in need.

How You Can Help

- **Donate:** Every contribution—no matter the size—makes a direct impact. The donation process through our campaign link is fast, easy, and secure.
- **Spread the Word:** Share and repost our fourth-grade fundraising link with family, friends, neighbors, and on social media. Expanding our reach as a community is the fastest way to hit our goal!

Together, we can show our students that their voices and actions have the power to create real change. Thank you for your continued partnership, generosity, and support in helping our team support animals citywide!

Warmly,

The Fourth Grade Teaching Team
