Guide and Questionnaire for Customers

The following information is intended to best meet your requirements in the field of mass finishing and process water technology. The following information defines the intended use.

1. Process Media	
Intended abrasive media (if known)	Manufacturer: _____ Designation: _____
Annual consumption (amount)	
Material abrasive media (if known)	<input type="radio"/> Ceramic <input type="radio"/> Plastic <input type="radio"/> Stainless steel <input type="radio"/> Various:
Geometry abrasive media (if known)	Other: <input type="radio"/> Triangle <input type="radio"/> Pyramid <input type="radio"/> Sphere <input type="radio"/> Cylinder <input type="radio"/> Cone <input type="radio"/> Trident
Dimensions of abrasive media in mm (if known)	
Abrasive media (if known)	<input type="radio"/> very strong <input type="radio"/> strong <input type="radio"/> medium <input type="radio"/> fine <input type="radio"/> very fine <input type="radio"/> polish <input type="radio"/> _____
Lifespan of the abrasive media	<input type="radio"/> ____ hours <input type="radio"/> up to size ____ mm <input type="radio"/> unlimited <input type="radio"/> not defined
2. Compound and additives	
Intended compound (if known)	Manufacturer: _____ Designation: _____
Compound Eurotec:	<input type="radio"/> CF654 (uni) <input type="radio"/> CF223 (aluminum) <input type="radio"/> CF887 (steel) <input type="radio"/> CF909 (plastic) <input type="radio"/> various: _____
Additional additives (if known)	Manufacturer: _____ Designation: _____ <input type="radio"/> Flocculants <input type="radio"/> Defoamers <input type="radio"/> _____
Environmental protection requirements	<input type="radio"/> Biodegradable <input type="radio"/> non-toxic <input type="radio"/> solvent-free <input type="radio"/> other:
3. Dry media	
Intended drying medium (if known)	<input type="radio"/> desired grain size: _____ <input type="radio"/> Corn meal <input type="radio"/> Nut meal <input type="radio"/> Air drying <input type="radio"/> Belt dryer <input type="radio"/> Washing

Process Media

Guide and Questionnaire for Customers

Temperature range for drying	<input type="radio"/> _____ °C <input type="radio"/> not defined
4. Workpiece details	
Material of the workpiece to be machined (exact description)	
	<input type="radio"/> Steel <input type="radio"/> Stainless steel <input type="radio"/> Aluminium <input type="radio"/> Brass <input type="radio"/> various: _____
Raw state workpiece	<input type="radio"/> turned <input type="radio"/> lasered <input type="radio"/> sawn cut <input type="radio"/> pressed <input type="radio"/> cast <input type="radio"/> other: _____
Attachment raw state	<input type="radio"/> Oil <input type="radio"/> Grease <input type="radio"/> Rust <input type="radio"/> Scale <input type="radio"/> Paint <input type="radio"/> Other: _____
Desired final state of the workpiece	
	<input type="radio"/> edges broken <input type="radio"/> burr-free <input type="radio"/> polished <input type="radio"/> deoiled
Workpiece dimensions typical [mm]	
Gloss level of the final state	<input type="radio"/> matt <input type="radio"/> satin <input type="radio"/> glossy <input type="radio"/> high gloss <input type="radio"/> orange peel
Workpiece features	<input type="radio"/> various:
	<input type="radio"/> Holes/threads <input type="radio"/> Recesses <input type="radio"/> Edge parts <input type="radio"/> Raw form
4. Wastewater treatment	
Wastewater treatment mode	<input type="radio"/> Circulation system <input type="radio"/> Continuous operation (loss) <input type="radio"/> Other: _____
Type of wastewater treatment	<input type="radio"/> Centrifuge <input type="radio"/> Belt filter <input type="radio"/> Chamber filter press <input type="radio"/> Other: _____
Previously used process	
6. What is desired	
Please choose	<input type="radio"/> Offer <input type="radio"/> Sample shipment <input type="radio"/> Further information <input type="radio"/> Personal advice <input type="radio"/> other/comment:

Guide and Questionnaire for Customers

Sample components or samples of processing equipment please send us to the following address:

Eurotec Innovation GmbH
Plant 2 – Technical Center
Industriestraße 36
89349 Burtenbach
Germany

Please include the following information with your shipment (if available):

- Please fill out this form as completely as possible
- Contact details of the contact person with email address and telephone number
- For sample part processing: If available, one or more finished sample components in the desired final state. If changes or improvements to the sample component are desired, please mark the sample with comments.
- Sample of procedural means (if available)
