

# NFPA GLOBAL ADVISORS HELPS GOVERNMENTS AND COMPANIES AROUND THE WORLD IMPROVE SAFETY.

NFPA Global Advisors™ is a business line within NFPA Global Solutions™. Whether it's a government, giga-project, or private business, achieving fire protection, electrical, and life safety goals requires several moving parts to act in harmony. NFPA Global Advisors can help governments and private entities develop, reshape, or transform their systems of safety by implementing the NFPA Fire & Life Safety Ecosystem™.

## Government Responsibility

- Develop Policy Language to Assist in Resolving Fire and Life Safety Challenges
- Assess Existing Ecosystems
- Develop Case Studies
- Provide Data and Research Projects
- Support Ecosystem Architecture

## Development and Use of Current Codes

- Develop Custom Standards Amendment Processes to Allow for Regional Adaptations to Existing Codes
- Support the Development of Corporate Standards
- Develop Strategies for Effective Code Implementation

## Referenced Standards

- Develop Custom Code Compliance Approach Reports
- Create Custom Standards Roadmaps for Design, Operation, and Installation, Testing, and Maintenance (ITM)

## Investment in Safety

- Perform Gap Analyses for Existing Ecosystems
- Create Master Safety ITM Plans to Assist in Capital Planning
- Assess Existing Systems and Buildings to Determine Compliance Liability

## Skilled Workforce

- Develop Custom Training for Fire Protection, Life Safety, Industrial, and Electrical Professionals
- Create Custom Certification Programs Based on Job Roles, Industry Segment, Technical Function, and Specific Skills

## Code Compliance

- Assist in the Development of Technical Authorities for Governments and Giga-Projects
- Create Approval and Compliance Roadmaps for Private Companies and Institutions
- Develop Change Management and ITM Compliance Solutions
- Provide Consultative Services on Emerging Issues

## Preparedness and Emergency Response

- Develop Custom Training for First Responders
- Provide Advisory Services for Emergency Response Organizations

## Informed Public

- Develop Safety Campaigns for Governments and Private Businesses
- Provide Data Analysis to Identify Emerging Hazard Trends
