**HOW TO USE**

Print and cut apart each card. Use them for sorting, matching, or oral response activities. Learners can name the picture, identify the ending sound, and match the letter. Cards can also be used alongside the Beginning Sound Phoneme Cards for a full letter-sound reference set.

**ENL TIP**

For English language learners, always say the word aloud and emphasize the final sound before asking the learner to identify it. Try stretching the ending sound slightly, like "druMMM" or "suNNN," to help learners hear where the word ends.
