

At the Department of Computer Science and Engineering, industrial internships are explicitly integrated into the curriculum to bridge the gap between classroom theory and corporate engineering realities. During the academic cycle, our students complete structured training programs across premier technology providers, specialized software development firms, and public utility networks to ensure day-one workplace readiness.

 Key Corporate Training Hubs & Partners

Our students actively engage with high-impact industry leaders and emerging tech innovators, including:

- **Enterprise Software & Development Labs:** Gateway Software Solutions, Genuine IT Solutions, Duratech Solutions, and Litz Tech.
- **Next-Generation Tech & Digital Ecosystems:** Natty Pangolin, iNeuron Intelligence, Sparkout Tech Solutions, Qono Technologies, Brainery Spot Technology, and TechCiti Software Consulting.
- **Digital Media & Creative Frameworks:** Acculer Media Technologies, 3 Monks Digital, Media Wave Technologies, and Leading Edge Mediaa.
- **Public Utility & Infrastructure Engineering:** Bharat Sanchar Nigam Limited (BSNL).
