My days in Sri Ramakrishna Institute of Technology groomed me for a better career. I appreciate the dedication and commitment of the faculty members from the Computer Science department, who not just taught us but also made us learn. Sharing their experience and knowledge helped a lot in identifying my professional advancement.

"I will always be thankful to the faculty members and the Institution for the exposure and the learning opportunities I had"

It was in 2015 when I made my choice to pursue BE Computer Science from SRIT and I can state with confidence today that the institution played a key role in molding my personae towards achieving holistic growth and in decision making when it is about your own career path and goals. It would be an understatement to praise/appreciate the faculty for their dedication, devotion in bringing out the best from the students that they dealt with. Be it academic curriculum, industry experience, technology appreciation, and vision of the future, the faculty helped me immensely in traversing this unfamiliar terrain with the utmost ease..

"When I decided to opt for higher education in my final year I had tremendous support from my departmental staff and Principal of the college in the admission process. I stand deeply indebted to their ability to bring out the best in me and SRIT provided the right foundation and platform to prepare, nurture, and launch oneself into their professional pursuit"

This is a glorious moment for me when i am writing a few words about my college.

"SRIT gave me exposure to develop interpersonal skills along with great academics".

It provided all the facilities and encouragement needed to attain high in life. Looking back, I can see my department was extremely important and a stepping stone in my career. Really these learnings help to excel in the professional world.

Doing my bachelor's from SRIT was a great experience. The Department of Computer Science is where the idea of my pursuing a career in IT became appealing, the faculty was a lineup of brilliant, motivated professors who guided me in my subjects while nurturing my interest in management and leadership. The curriculum was designed to challenge students and created an environment of safe space to learn and make mistakes. The professors encouraged students to discuss the current and latest technologies and inspired us to keep expanding our knowledge base. I am grateful for all the faculty and staff members who helped me become who I am today

"I had the opportunity to host symposiums, charity runs and social responsibility projects which helped me build a professional network and taught me much of what I now know about conflict resolution"

SRIT has a major contribution in moulding the person i am. SRIT has not only helped me in my academics but also encouraged me to showcase my passion and made me believe in my talents

"Being a film director with an engineering background, there are instances in my life that makes me realise SRIT was one of the best choice that provided me a technical knowledge"

I am forever grateful to the professors and faculty for guiding me throughout and also I cherish each moment spent with my friends at the campus of SRIT.

Vaishali S P
Technical Learning Consultant &
HR Advisor Specialist
Fujitsu, Munich, Germany

Alumni (2010-2014)

In SRIT I was always given the freedom to explore my leadership skills. A few of us seniors had organized a programme to help the juniors with their placements. We were hesitant when we first approached the authorities assuming that our proposal would be denied. But on the contrary, we were encouraged to pursue our idea and we successfully completed the programme with a mock HR round for all the departments. It was a herculean task made possible only because of the support of all the faculty.

"It was organizing such initiatives that helps me today as I work as the Technical Learning Consultant and HR Advisor specialist for the whole of Europe in Fujitsu. I constantly employ the soft and technical skills I learnt in SRIT. I always look back fondly at my memories there."

Studying at SRIT has been an experience of a lifetime. I received a lot of support and confidence to pursue technical and design projects from my teachers. I was able to actively learn my subjects while having the freedom to explore other cultural and technical activities such as symposiums, competitions and college fests. The faculty has always been immensely supportive of my interest in design, and I was actively encouraged to turn my passion into work by forming our own clubs and organizing training sessions. I was able to grow as a person, and hone my abilities in team management, problem solving and adaptive learning - which play a big role in my career as well.

"SRIT helped me prepare for the real world. Learned here not just engineering, but also how to be a capable adult, for which I will always be grateful."

SRIT has paved me the way to achieve everything today in my life as a person I am. Apart from being a technical professional as a leading Member of Technical Staff at Nutanix Technologies, Bangalore, SRIT has helped me in growing as a responsible person who believe in passion, honest, hunger, efforts, self-confidence and hard work. Today being a proud SRITian, I can proudly say I stand ahead in competing with all my co colleagues in terms of ideas and technical abilities. I thank the Management, Department of CSE, all the faculties, professors and non-technical staffs for supporting and guiding me throughout. I forever will cherish and enjoy all the moments and time spent in college with my professors

"The knowledge my college and my department (CSE) has provided is always being a guiding light supporting me throughout my career and life."

I'm having tons and tons of unforgettable memories in my college, College is the best place to shape yourself. We can get N no of teachers and friends for our guidance. I haven't missed anyone those things in SRIT. I can say hostel is the second home, I get all the caring, sharing, playing and fighting etc etc happens over there. I can't forget even a single day of my college and hostel life. I still can't forget the Tuesday and Thursday's dinner in hostel.

" However I'm not good in study's, but teachers haven't ignored me. I would like to thank all the beloved teachers and staff who teaches me and ignored my atrocities.. "
