OPERATIONS MOVE AT AI SPEED. GOVERNANCE MOVES WITH IT.

The governed execution layer for the agentic era.

Your teams already work in Slack and Teams. Ofelia Agentic turns those conversations into governed execution.
It coordinates the teams, the systems and the agents behind every request. Work gets done where it starts, at AI speed, under control.

Governed AI orchestration in Slack and Teams.

01

Actionable Knowledge

Ask in Slack or Teams. Ofelia surfaces the right knowledge and guides your teams through every step, inside the conversation.

02

Governed AI orchestration

One message in Slack or Teams launches a full workflow across teams and systems. Ofelia coordinates the tools, the handoffs and the agents. You approve. You stay in control.

What makes Ofelia unique

Instant adoption

Embedded in Slack and Teams, where work already happens. No new tool. No training.

Governed AI

Compliance, traceability and human-in-the-loop, at every step.

Execution, not assistance

Not just answers. Ofelia moves work forward enterprise-wide: across teams, tools and agents.

Compliance through experience

The right way to work is also the fastest.

One message. Governed, end-to-end execution.
