CASE STUDY

Cornerstone Bank

LOCATION - Sturbridge, MA **SIZE -** 4,725 sq ft

PROJECT TYPE - Renovation **COMPLETED -** 2023

THE CHALLENGE

Cornerstone Bank was modernizing its branch network. Sturbridge needed to meet the new brand standards. It also had to keep serving consumers while the work happened.

THE SOLIDUS APPROACH

We phased construction through Integrated Project Delivery. Updated brand standards, illuminated exterior signage, custom fixtures and refreshed finishes went in while consumers kept banking in the building.

THE RESULT

Sturbridge stayed open through every phase and was completed in 2023, aligned with the rest of Cornerstone's network. Cornerstone brought us back for a ground-up branch in Shrewsbury.

> **No surprises on this project.** Solidus did an excellent job of providing a branded site that has been well received in the community.

Todd Tallman
CEO, CORNERSTONE BANK
