

Sage Intacct Integration

Nuvei + X3

Every payment, **everywhere.**

Fully integrated payment processing for Sage X3, enabling customers to accept credit cards and ACH from within their ERP to streamline payment workflows and improve cash flow visibility.

Nuvei is a Sage Recommended Solution across the Sage ERP ecosystem (including Sage X3) and has a long-standing direct integration history with Sage.

Sage recommended solution.

Fewer manual steps + faster reconciliation with payment activity connected to ERP workflows and near real time payment info.

Lower B2B card costs (where eligible) via Level 3 data enrichment from Sage X3 transaction detail.

Faster cash flow with rapid batch processing and next day funding support.

What's included?

- Credit card processing integrated with Sage X3, including update/save card info and support for voids/refunds.
- Integrated ACH processing (electronic payments).
- Customer sync for adds/deletes/changes; multi company support with 1 MID per company.
- Reporting that posts back into your software (Sage X3).
- EMV integration (where applicable) and PCI aligned processing noted for the integration.
