

Acumatica Integration

Nuvei + Acumatica

Every payment, **everywhere.**

Certified by Acumatica, Nuvei's integration allows you to consolidate, control, and reconcile all internal and external payment sources in real-time within a personalised Customer Portal. It features easy onboarding and a powerful, user friendly payments interface for quick and secure processing.

Fewer manual steps: Process payments as part of Acumatica workflows instead of switching systems.

Faster, easier repeat payments: Tokenisation and recurring billing reduce friction for repeat customers.

Support card present and card not present use cases: EMV terminals plus hosted payment page options provide flexibility.

Lower risk: Encrypted processing environment with tokenisation.

What's **included**?

- Credit and debit acceptance.
- Secure processing environment (cloud-based) with end to end encryption noted in the marketplace listing.
- Tokenised card processing to protect sensitive data and speed future payments.
- Hosted Payment Page processing within Acumatica (via Acumatica Hosted Payment Page).
- Recurring payments (automated or manual) to support repeat billing.
- Integrated terminals + EMV support for card present transactions (where applicable).
- Pre authorisation + "capture for more" to support Sales Order / AR workflows where the final captured amount may differ from the preauthorisation.
- Invoicing + reporting (including chargebacks in reporting per marketplace listing).
