- Speaks **English and Spanish**

AUDIENCES

Health system executives · Hospital boards · Physician leaders · Medical associations · Pharma and medtech · Digital health · Universities · Aerospace and remote health

SIGNATURE TALKS

Accountable Intelligence

Where AI should lead, and where humans stay accountable. Leaders leave with clear lines of ownership before the next deployment.

AI That Survives the Workflow

Why healthcare AI pilots stall, and the specific moves that get a project to durable, daily adoption.

SAFE AI

A physician-led framework for responsible healthcare AI: weigh risk, involve clinicians, protect patients, keep a human in charge.

"Incredibly engaging ... he always delivers a compelling, high-energy, informative presentation."

Debra Beauregard, MBA · Children's Hospital of Orange County

FORMATS

Keynote, 30 to 60 min · Board briefing · Fireside · Panel · Retreat or workshop · Virtual · English, Spanish or bilingual
