

ABILENE^{AG}SOLUTIONS

Secure your Mission

About the Abilene Group

Abilene Group is a coalition of Swiss senior experts dedicated to excellence in **Governance, Risk Management, Compliance and Cyber Resilience**. Our group merges distinct yet complementary competency centers, each bringing specialized knowledge and services to our clients for +25 years.

ABILENE  GROUP

Our Mission: Act as a one-stop shop for regulatory compliance and Cyber resilience.

Four Competency Centers to protect your organization

Strategic, tactical, and operational consulting services to convert complex regulations into practical business compliance actions

Leading trainers providing key educational content to IT, Security and compliance professionals seeking widely recognized certifications

User-friendly, AI-powered platform designed to improve and simplify governance, risk, compliance, and supply chain management (supplier shield)

Cybersecurity solutions to secure your mission, supported by European technologies with a specific focus on critical environments

ABILENE  GROUP your one-stop shop for compliance and cyber resilience

Our Geographical Presence in Europe

ABILENE GROUP Rue de la Gare 39, 1110 Morges

1st of January 2026

Rue de Carouge 28, 1205 Genève

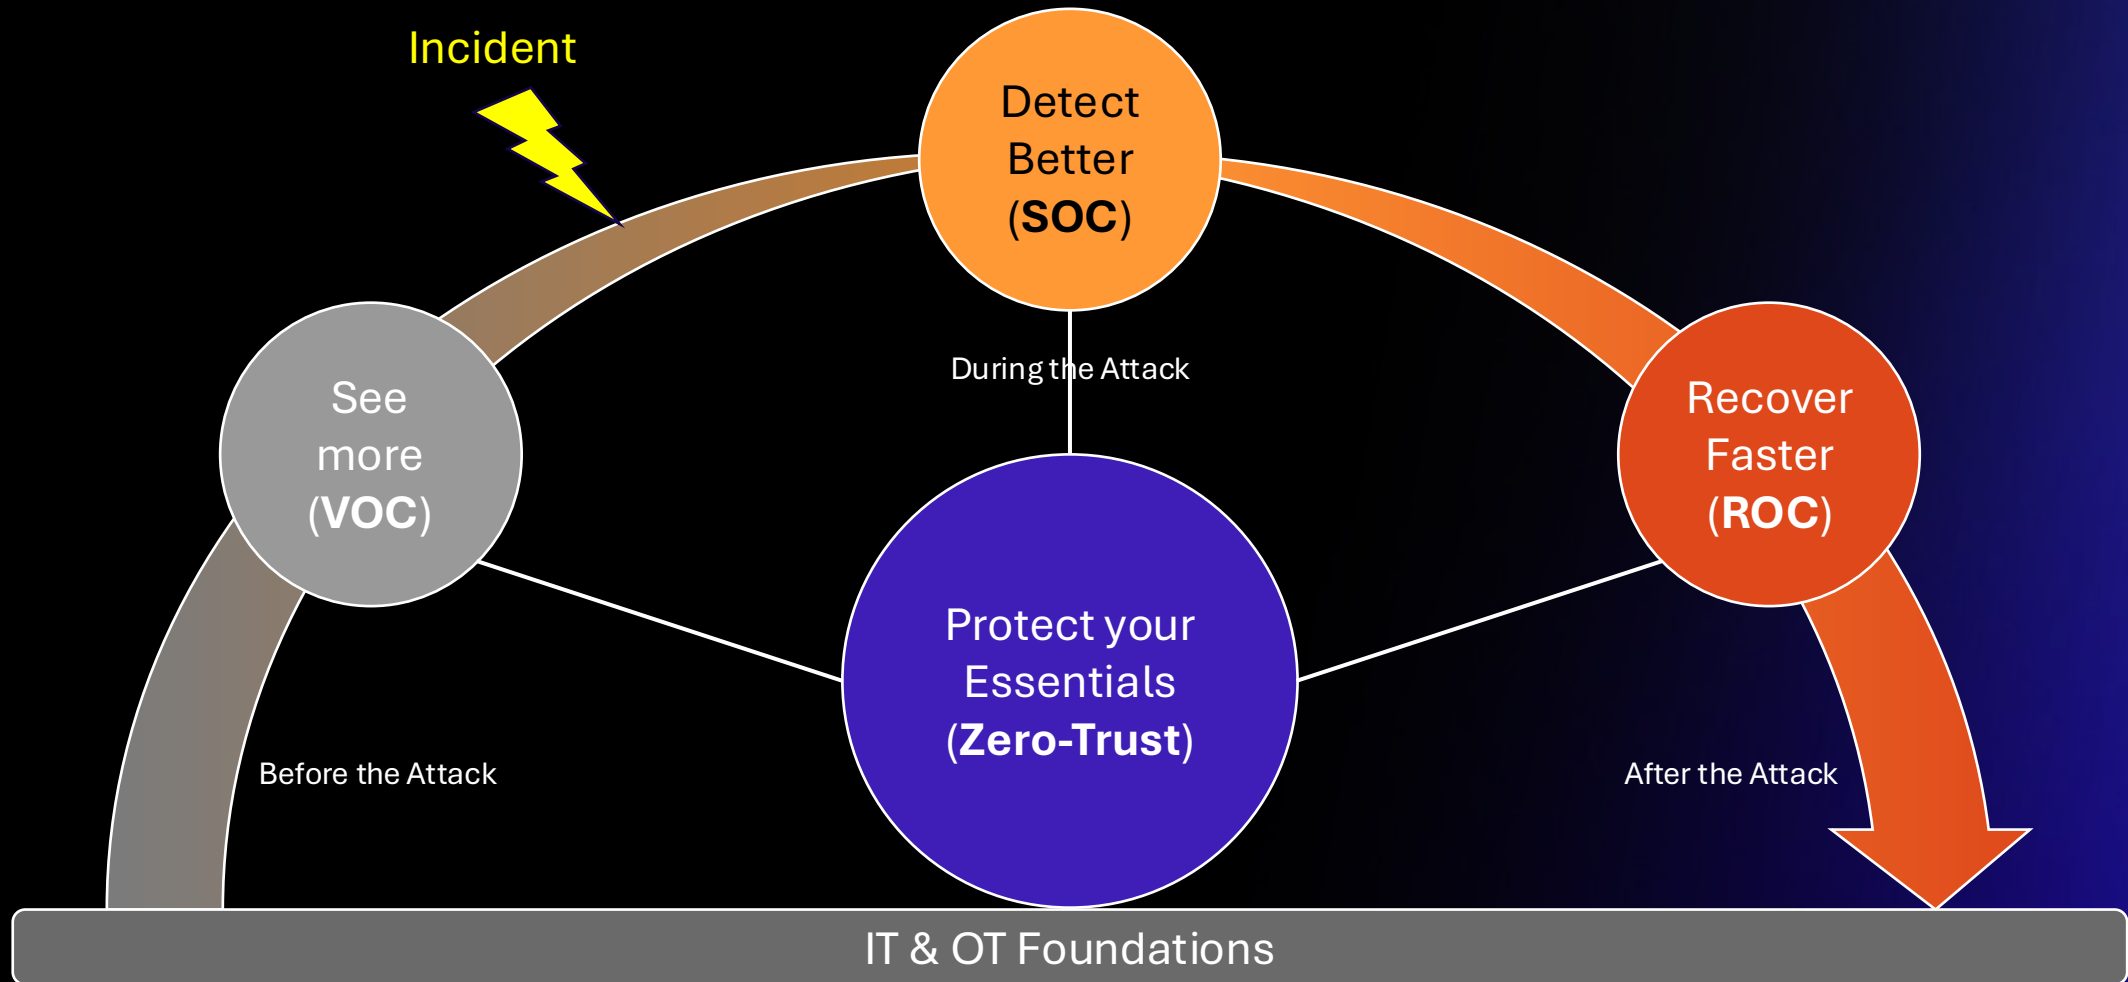

Rue Cuvier 16, 69457 Lyon 06

Roadmap 2026

Managing Cyber Incidents at all stages of a Cyber Attack

Abilene Solutions Strategic Positioning

Solutions enabling
Cyber resilience by
managing Cyber
Incidents at all stages

Cybersecurity
Technologies and
Services
made in Europe

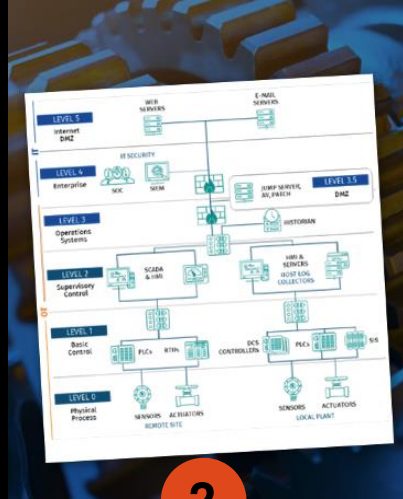

Specific Approach
on critical infrastructures
and industries running
OT/ICS/IoT/IoMT

A Specific Approach to OT/ICS

1

**ICS Incident
Response**

2

**Defensible
Architecture**

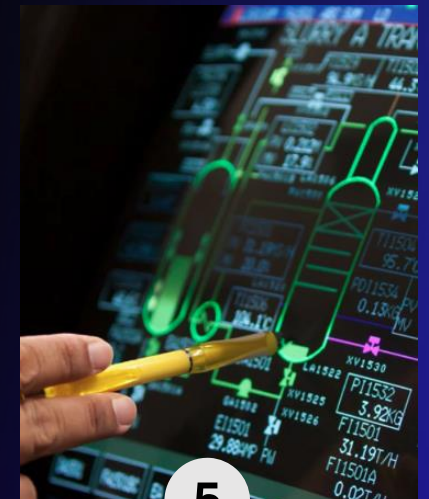

3

**Secure Remote
Access**

4

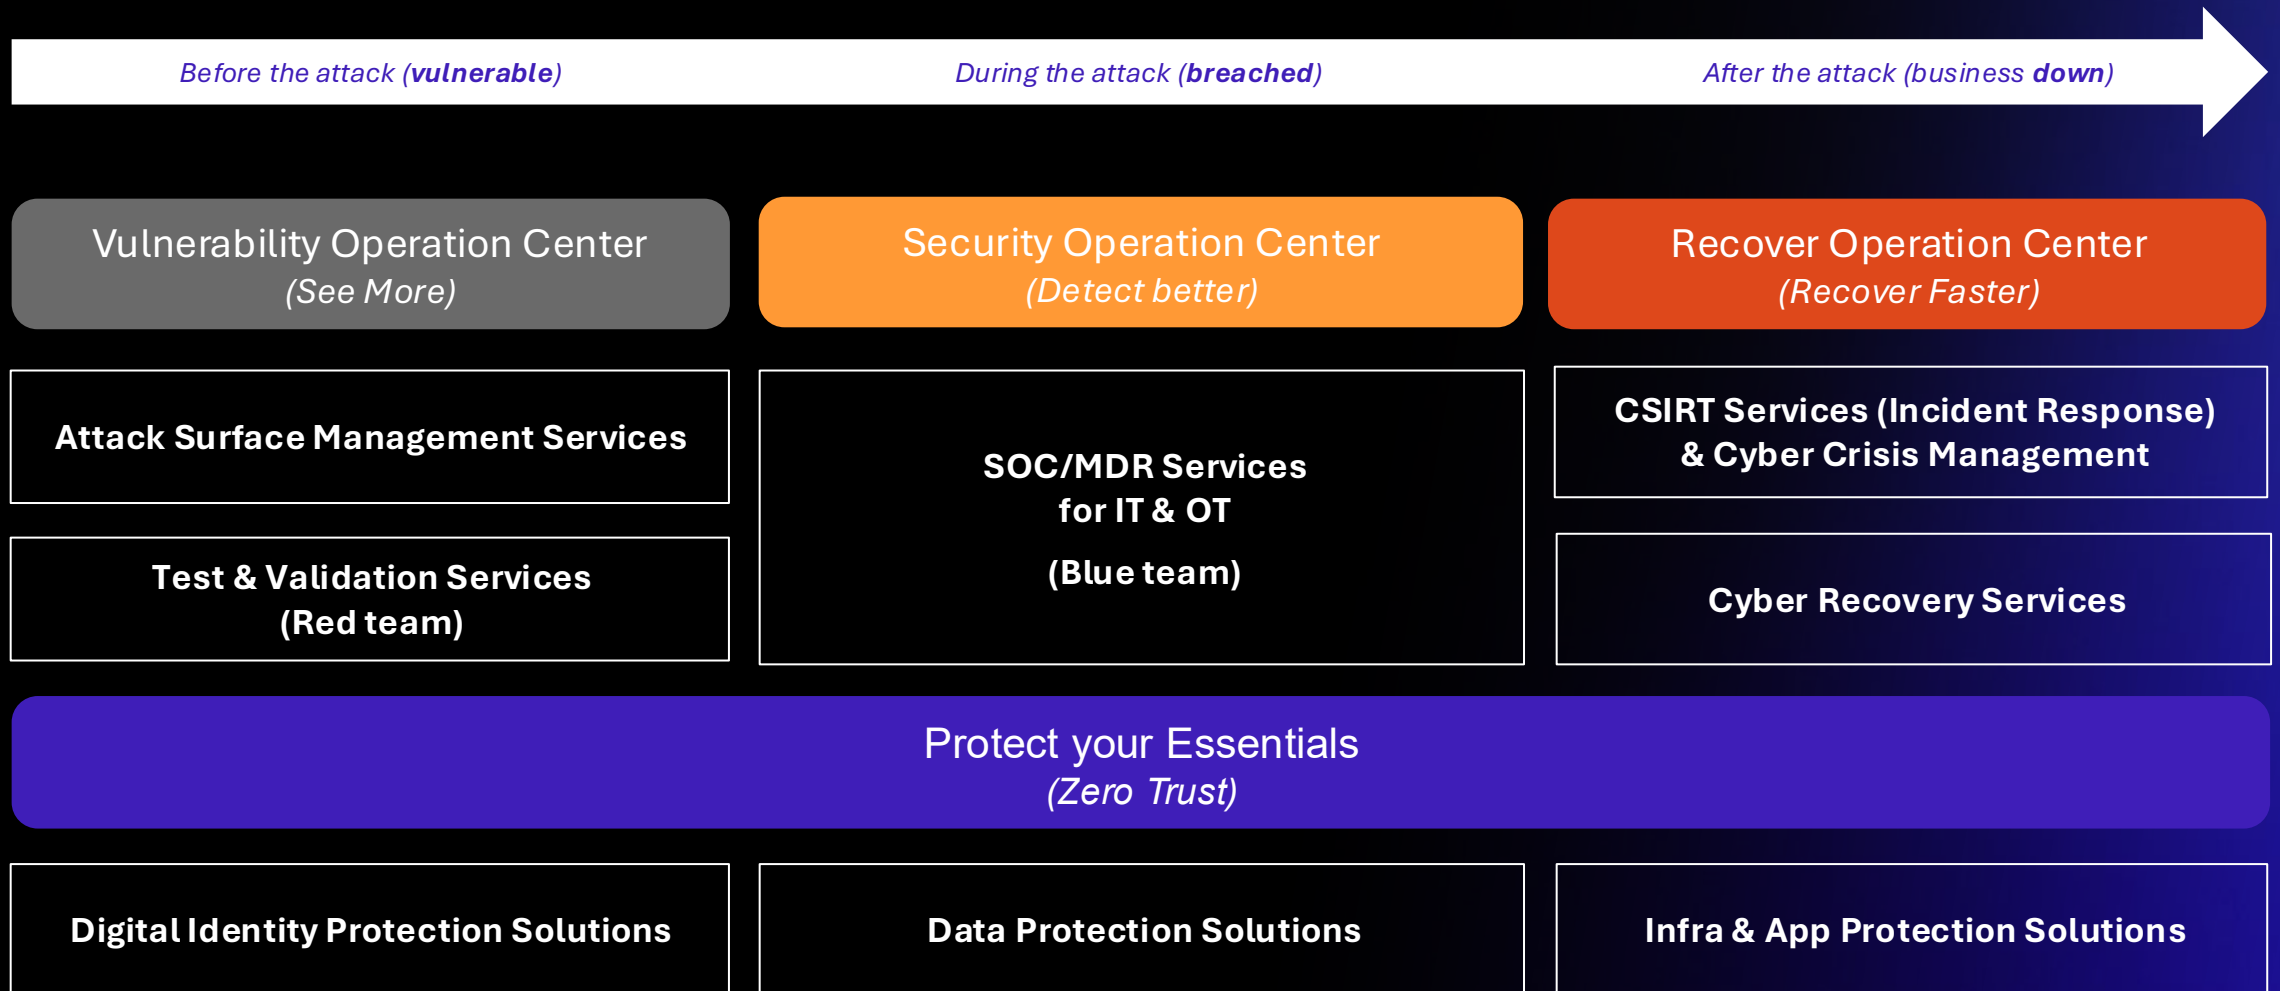

**ICS Network
Visibility
Monitoring**

5

**Risk-Based
Vulnerability
Management**

Solutions & Services to Secure your Mission

Solutions & Services to Secure your Mission

VOC - See more

VOC Services

- ✓ Exposure Management (Identity, Data, Cloud)
- ✓ Internal & External Vulnerability Management
- ✓ Brand & Digital Risk Surveillance
- ✓ Threat & Vulnerability Intelligence

Cyber Range Services

- ✓ Breach and Attack Simulation
- ✓ Tests & Validation Services (network, apps, equipment, physical location, etc.)

SOC - Detect better

SOC Services

- ✓ Maturity Audit
- ✓ SOC/MDR (CTI, SIEM, EDR/MTD agents, NDR, CDR)
- ✓ SOC/MDR add-on for OT (incl. OT agents & sensors)
- ✓ SOC/MDDR (Data Centric MDR)
- ✓ Automation (SOAR)
- ✓ Phishing Analysis Service
- ✓ Advanced Threat Hunting Service
- ✓ Network and Identity Deception (honeypots, tokens, IDs)

ROC - Recover faster

Incident & Crisis Management Services

- ✓ Emergency Incident Response
- ✓ Crisis Management
- ✓ Incident/Crisis Readiness
- ✓ Workshops & Exercises

Backup & Recovery Services

- ✓ Cyber Recovery Readiness (BIA, MVC, BCP, DRP)
- ✓ Local/IaaS/SaaS Backup Services
- ✓ Cyber Recovery (DR location, Clean & restart room)

Zero Trust - Protect your essentials

Digital Identity Solutions

- ✓ Identity Governance (IGA)
- ✓ Access Management (IAM/PAM)
- ✓ Multi-Factor Authentication (MFA) and unified SSO

Data Protection Solutions

- ✓ Data Classification
- ✓ Data Security Posture Management
- ✓ Data Encryption, Data Leakage Prevention

Infra & Apps Protection Solutions

- ✓ Network protection IT/OT (DDoS, FW, IDS, NDR)
- ✓ Email and Web gateways, Browser Isolation
- ✓ Cloud Native and AI Apps Protection (WAF, CNAP)

Our Mission Statement

Cybersecurity solutions to secure your mission, supported by European technologies with a specific focus on critical environments

Abilene Solutions (AbSolut) will combine the Abilene group's expertise in regulatory and compliance to provide cybersecurity technology solutions enabling continuous cyber resilience, protecting customers before, during, and after a cyber-attack.

Our cybersecurity capabilities are based on four areas of expertise:

-  Implement Zero Trust foundations to **protect your essentials**
-  Understand your exposure and reduce your attack surface (**see more**)
-  Detect and mitigate Cyber Threats (**detect better**)
-  Respond and rebuild in crisis (**recover faster**)

We deliver our solutions with a preference for technologies and services “made in Europe”, and a specific approach for critical environments (OT).

Our Motto: **Secure your Mission!**
