

The compliance and governance partner for organizations that operate at scale.

End to end approach

The compliance and governance partner for organizations that operate at scale.

Swiss-headquartered. Built by senior experts. 25+ years turning regulation into operational reality.

Turning regulation into action.

We translate complex regulatory frameworks into operational reality, across strategy, tactics, and operations.

01

Strategic Advisory

Board-level guidance on regulatory exposure, target target operating models, and governance.

02

Tactical Implementation

Design and build of management systems, control control frameworks, and end-to-end compliance compliance programs.

03

Operational Integration

Day-to-day execution: CISO and DPO as a service, service, audit support, sustained operations.

PRACTICE AREAS

● AI Governance

ISO 42001 · EU AI Act

● Cybersecurity

ISO 27001 · NIS2 · DORA

● Data Protection

GDPR · FADP

● Business Continuity

ISO 22301

150+

Management Systems

200+

Audits & Gap Analysis

Swiss-HQ

European Coverage

Govern the program you own.

Most GRC tools are built for auditors. **Acuna is built for the professionals running the program.**

AI-native GRC and third-party risk for organizations managing 15 frameworks, 200 controls, and a board that wants answers yesterday.

Risk Intelligence

Continuous risk scoring across your frameworks and threats.

Control Operations

Map a control once, and it counts across every framework that needs it.

Evidence Engine

Collect evidence once. Reuse it everywhere everywhere it's needed.

Audit Readiness

Always-on audit room, auditor-grade traceability.

Supplier Shield

Native TPM: OSINT scoring, assessment campaigns.

Data Privacy

ROPA, DPIAs, DSARs, and data-flow mapping.

Aiko

AI agent for evidence, control mapping, and risk.

Swiss made

SaaS multi-tenant. Swiss-hosted. On-prem available.

150+

Frameworks. One platform.

SOME OF THE FRAMEWORKS INCLUDE

ISO 27001 • SOC 2 • NIS 2 • DORA • GDPR • ISO 42001 • NIST CSF • HIPAA • CMMC

Professional trainings.

Professional training across cybersecurity, governance, AI, privacy, and management systems, delivered in 120+ countries.

2,500+

Trainees certified

120+

Countries served

>25%

WHAT WE DELIVER

ISO Management Systems

27001 • 27701 • 42001 • 9001 • 22301

AI Governance

AI Act readiness • ISO 42001

Cybersecurity & Privacy

CISO • DPO • Lead Auditor / Implementer

Multi-Language Delivery

EN • FR • ES • DE

“Trainers who run real compliance programs by day, not career instructors. You learn from people who do the work.”

Accredited by PECB, ISACA, ISC2, and Microsoft. Globally recognized.

Secure your mission.

European cybersecurity for critical environments, managing threats before, during, and after a cyber attack.

BEFORE THE ATTACK

DURING

AFTER

Protect your essentials

Zero-trust implementation of your security controls : Identity protection (IGA, IAM, PAM, SSO), Data security (DC, DSPM, DLP). Infrastructure (ZTNA) and application protection (CNAP).

See more

Continuous Threat Exposure and Attack Surface management. Threat Intelligence. Brand and Digital Risk protection. Vulnerability Management. Offensive security.

Detect better

Threat Detection and Response services (SOC) for IT/OT. Elite Threat Hunting. Network Deception. Cloud Native Monitoring. Breach and Attack Simulation.

Recover faster

Incident Response (CSIRT) and Crisis management support. Incident Response and Business Continuity Readiness. Backup and Recovery services.

MADE IN EUROPE

European-first tech stack. Sovereignty matters.

OT/ICS • IoT • IoMT

A specific approach for critical infrastructures.

FULL LIFECYCLE

Coverage across the attack continuum, not point solutions.

REFERENCES

Trusted by leading organizations.

A selection of clients across the public and private sectors.

Thank you.

From framework to function.
