

How we help Fire Extinguisher Manufacturers

From exhibition floors to client sites — present your full range of Products in a way no printed brochure ever could.

Manufacturers often struggle to demonstrate all Products to clients across geographies. We solve this by enabling immersive, interactive product demonstrations—without the need to transport physical units.

Strategic Expansion Partner, London & Partners —
The Mayor of London's Official Growth Agency

A Dedicated Awareness Session, Straight to Your Workplace

 11-22 May, 2026

 45 Minutes

Demonstrating how manufacturing companies
are adopting immersive technology to change
the way they do sales & marketing

What We Bring To Your Office

Virtual Product Solutions

3D Machine Models

Sales Demo Apps

VR Headset

4 Ways to Showcase Your Products

Immersive Sales Kit (VR)

A VR experience that immerses users in realistic fire scenarios, letting them safely practice using different extinguishers.

1

Immersive Sales Kit (MR)

A mixed reality experience that adds virtual fires and extinguishers to real spaces for realistic training.

2

AR Product Demo Kit

A tablet AR app that places life-sized 3D extinguishers in any space.

3

Sensory IoT Kit

A sensor-equipped extinguisher linked to a screen with virtual fire scenarios for a hands-on, gamified experience.

4

Immersive Sales Kit (VR)

A VR experience that immerses users in realistic fire scenarios, letting them safely practice using different extinguishers.

Recreate high-stakes fire situations safely so customers experience the urgency and see the value of having the right extinguisher.

Benefits

- ✔ Realistic 3D environments (factory, warehouse, office)
- ✔ Sales enablement
- ✔ Select from your full product range
- ✔ Product Demo & In Use

Immersive Sales Kit (MR)

A mixed reality experience that adds virtual fires and extinguishers to real spaces for realistic training.

Bring virtual fire scenarios into the customer's real environment, answering "What would this look like here?"

Benefits

- ✔ See actual surroundings with virtual fire overlays
- ✔ Virtual fire in realistic locations (storage racks, EV charging)
- ✔ Your Virtual Product in Actual Space
- ✔ On-site assessment

AR Product Demo Kit

A tablet AR app that places life-sized 3D extinguishers in any space.

Showcase your entire extinguisher portfolio at full scale using only a tablet or smartphone—no heavy units to transport.

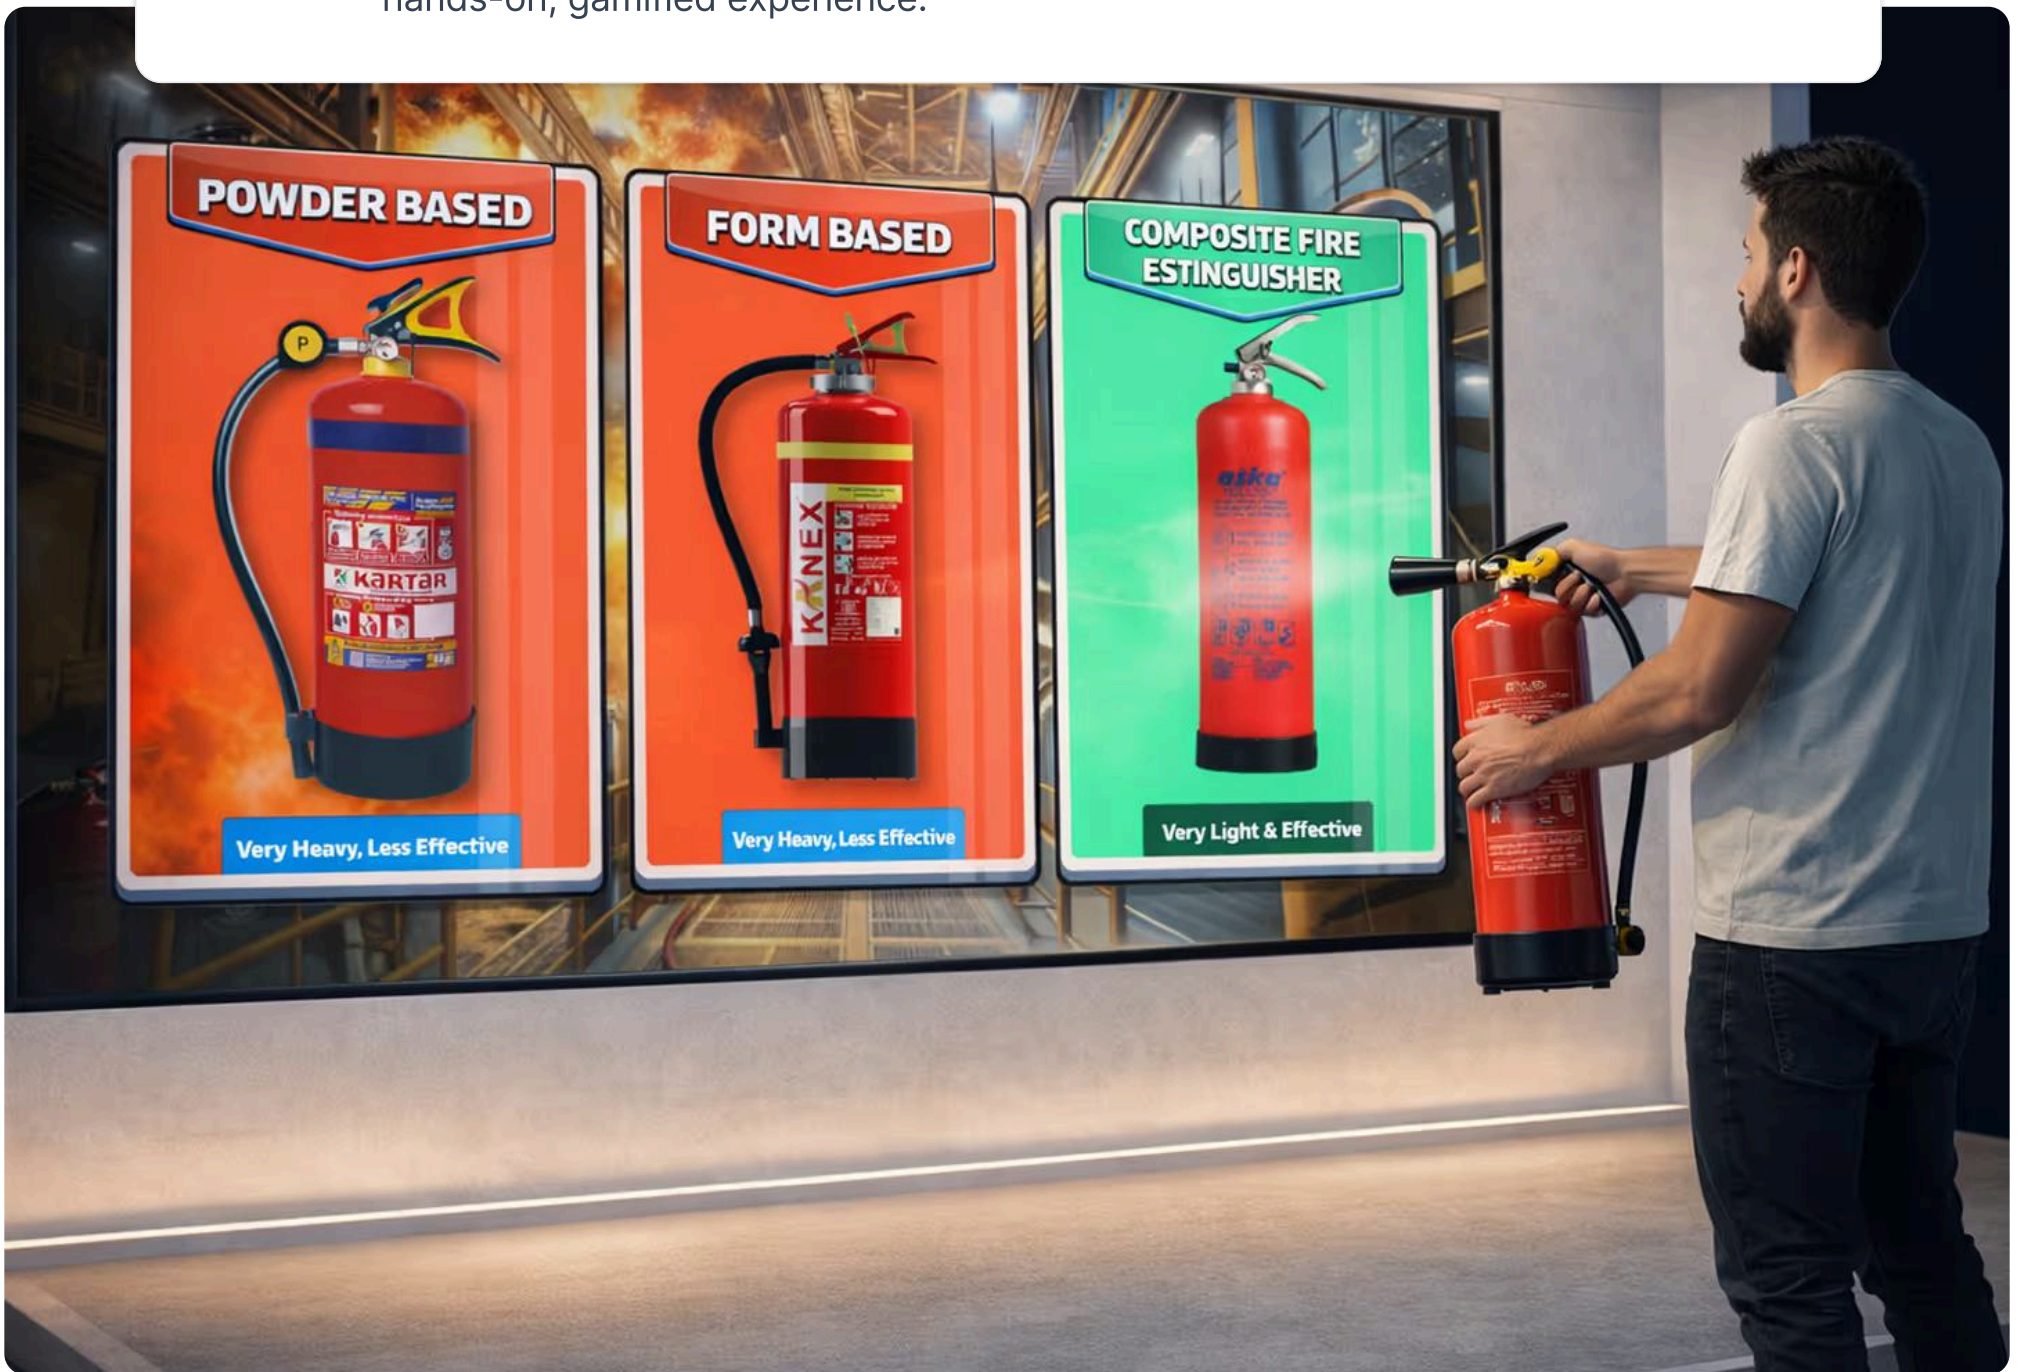

Benefits

- ✔ Life-sized 3D models appear in any room
- ✔ Interactive hotspots reveal specifications
- ✔ Compare multiple extinguishers side by side
- ✔ WebAR from QR codes

Sensory IoT Kit

A sensor-equipped extinguisher linked to a screen with virtual fire scenarios for a hands-on, gamified experience.

Showcase your entire extinguisher portfolio at full scale using only a tablet or smartphone—no heavy units to transport.

Benefits

- ✔ Life-sized 3D models appear in any room
- ✔ Interactive hotspots reveal specifications
- ✔ Compare multiple extinguishers side by side
- ✔ WebAR from QR codes
