

A platform to house all of your Packsize software modules in one place – offering efficient integration capabilities, real-time support and an excellent user experience – PackNet Software Platform delivers the capabilities needed for efficient Right-Sized Packaging On Demand<sup>®</sup>.

## Overview

Our solutions prioritize your long-term goals. Our machine systems enhance throughput and cost-efficiency for business growth and scalability. To meet your evolving needs, we upgraded PackNet software, now available as PackNet Software Platform. This cloud-based solution consolidates all software components into a single, scalable platform, ensuring an improved user experience and robust support for unlimited company growth.

## Solution-Oriented Capabilities

- **SOLUTIONING** PackNet Software Platform optimizes and scales corrugated packaging production based on demand. It is customizable for various productivity scenarios and integrates with ERP and WMS systems, offering tailored end-to-end solutions.
- **SCALABILITY** PackNet Software Platform supports multi-tenant environments with mixed-machine and multi-machine flows, allowing businesses to scale operations without expanding IT infrastructure.
- **SPEED** PackNet Software Platform enables a high-level of availability and reliability. Customers have access to their applications with minimal delays ensuring efficiency during right-sized carton production.
- **SECURITY** PackNet Software Platform architecture ensures data security through encryption, preventing unauthorized access and detecting/responding to threats in real-time.
- **SUSTAINABILITY** Packsize invests in renewable energy and carbon offset programs to help businesses reduce their carbon footprint. Cloud solutions are more environmentally friendly and cost-effective, enabling customers to maximize resource efficiency.
- **SUPPORT** Packsize offers cutting-edge cloud technologies and platform capabilities, continuously updating and enhancing our secure cloud solutions. Our 24/7 team of certified technical support experts assists with any technical or equipment issues.

## Platform Features

- Cloud-hosted, multi-site and multi-machine platform
- Optimized Carton Production
- File and API Import capabilities
- Integration capabilities with customer ERP and WMS systems
- Machine support for X7, X5, X4, EM7, and IQ Fusion
- Access to analytic data through PackNet Report
- Customizations through PackNet Dim and PackNet Cube

# Talk to an Expert

Our dedicated team of packaging specialists and engineers will apply their industry knowledge and expertise to help you reduce your carbon footprint, increase efficiency, and improve your overall packaging process flow. Get in touch with us today to find out which Packsize solution is best for you.
