

X5 Max

Advanced Automation for Large-Format Packaging

Overview

The X5 Max from Packsize builds on the proven technology of the X5, combining advanced automation with expanded capabilities for large-format packaging. By integrating the Flaps Down system directly into the X5 workflow, the X5 Max produces fully formed, right-sized boxes at significantly larger dimensions for efficient, streamlined, and sustainable packaging at scale.

- Next-generation integration of the X5 and Flaps Down technologies for seamless box forming and flap securing within a single machine.
- Expands maximum box size capacity, enabling greater flexibility without compromising precision or throughput.*
- Introduces the “Nunatab,” a small piece of corrugated that connects two flaps together, preventing flaps from folding upward.
- Delivers up to 600 ready-to-pack, right-sized boxes per hour.

The X5 Max integrates seamlessly with PackNet production and optimization software from Packsize. An advantage for high-volume centers, this technology integration assesses and creates the most efficient and proven custom box-making experience in the e-commerce marketplace.

Packsize Partnership and Support

Backed by a worldwide support organization of expert engineers and technicians, Packsize can assist every X5 Max engagement at the local level and provides a full portfolio of packaging products and services to tailor each unique packaging environment

Technical Specifications

Cycle Time	6.4 seconds
Machine Speed	600 boxes per hour
z-Fold Supply	Up to four tracks
Weight	13,024 lbs (5756 kg)
Max Height	11 ft 3 in. (3425 mm)
Length (w/Infeed)	57 ft 10 in. (17627.2 mm)
Width	11 ft 10 in. (3595 mm)

Software Capabilities

Order Induction & Pick Optimisation	PC ADD
WMS/WCS Integration	PackNet
Data Analytics & Cloud Reporting	PackNet
Cubing Integration	PackNet

Automation Features

Print and apply labels on demand or pre-printed labels	✓
Fold	✓
Glue	✓
Erect	✓
Flaps securing technology	✓

*Note that machine rate decreases as box size increases. X5 Max maintains the same speed as a standard X5.

Talk to an Expert

Our dedicated team of packaging specialists and engineers will apply their industry knowledge and expertise to help you reduce your carbon footprint, increase efficiency, and improve your overall packaging process flow. Get in touch with us today to find out which Packsize solution is best for you.
