We are an EPC Company specializing in MEP jobs.

One of the company's core strengths lies in MEP (Mechanical, Electrical, and Plumbing) services, where Abja brings deep domain expertise, technical proficiency, and innovative solutions. Over the years, Abja Power has successfully executed numerous projects across various sectors, a detailed list of which is annexed for reference.

WHO WE ARE

Abja Power Limited is a pioneer in the field of comprehensive EPC (Engineering, Procurement, and Construction) solutions. With a Proven track record across diverse infrastructure segments, Abja has established itself as a trusted name in delivering end-to-end project execution with excellence. The unique selling proposition (USP) of Abja Power Limited lies in its unwavering focus on quality and cost-effectiveness. Every project is delivered with a commitment to engineering precision, timely completion, and value for investment-ensuring complete satisfaction for its clients.

OUR SERVICES

MEP is the backbone of modern infrastructure-and it's our forte. Our MEP division ensures optimal system performance, energy efficiency, and long-term reliability through:

- Electrical Distribution & Lighting**
- Fire Detection & Suppression Systems**
- Plumbing & Drainage**
- HVAC Systems**
- Solar Power**
- Building Automation & BMS**

Abja's MEP solutions integrate design, engineering, Procurement and execution into a seamless process tailored to client needs.

**WE HAVE DEVELOPED 100+
PROJECTS FOR CLIENTS.**

- Quality Assurance: We follow international standards and rigorous QA/QC practices.
- Cost-Effective Solutions: Value engineering and optimization to reduce project costs.
- Timely Execution: Proven project management capabilities ensure on-time delivery.
- Skilled Workforce: Certified and experienced professionals across disciplines.
- Client-Centric Approach : We build lasting relationships through transparency and trust.
