

Live. Smile. Inspire

COMPLIMENTARY INITIAL EXAM AND CONSULTATION

Owning your best smile should be a journey that is fun, brief, transformational, and ultimately life-changing. Whether you are 7 or 70, thinking about your smile for the first time or just wanting to correct things that have changed over time, we want to partner with you on this exciting journey and take care of all your needs along the way.

During your first complimentary visit, we will take photos of your teeth and any necessary x-rays, and your doctor will provide a full exam. We'll use all of this to develop a custom treatment plan tailored to your needs, wants, and budget — and answer any questions you have about treatment length, insurance benefits, options, and cost. We pride ourselves on finding a flexible payment option that works for you!

Visit us at www.eastTNorthodontics.com to learn more, request appointments, take a virtual tour, read patient reviews, and download new patient forms. We can't wait to meet you!
