

Ready to take
your business to
THE NEXT LEVEL ?

intelligent
Medical Document
Processing

Re-imagine

Process unstructured
medical documents
2x-3x faster & reduce
manpower by 50%

Using **iMDP Solution**

Key Solution Highlights

- Secure, cloud-based medical records processing solution
- Online collaboration between clients & virtual teams
- End-end custom workflow optimization
- Real-time dashboards to monitor case status/SLAs
- High accuracy with AI enabled Human-in-the-loop tools

Intelligent Medical Document Processing focuses on 3C's

Content, Context & Cognition

CONTENT

Medical record data extraction & summarization

CONTEXT

Derive context of medical records from cases, chronology & clinical reports

COGNITION

Intelligent decisive insights from medical records & cases, cognitive search, auto-medical summaries

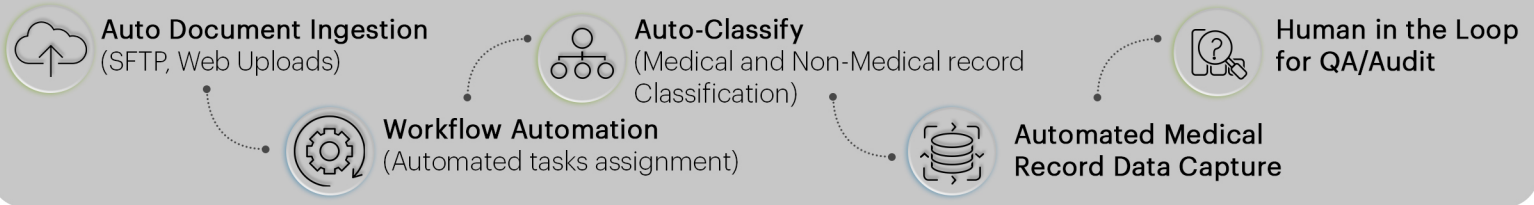

iMDP

Novacis Digital

Key Business Challenges

- ⦿ Faster turnaround time (TAT) **demands** from clients
- ⦿ **Security** & HIPAA restrictions for moving/downloading data offshore
- ⦿ Resource **ramp up** challenges due to healthcare SME pre-requisite
- ⦿ Increasing **cost** pressures from competition and market
- ⦿ **Customized** content processing needs & medical record output standards
- ⦿ High **document complexity** – unstructured formats, hand-written text, large case files, increasing case volumes etc.

AI-POWERED MEDICAL RECORDS PROCESSING

iMDP Transformational Outcomes

- 2X -3X faster TAT
- 200-300%+ Business Growth
- 30%+ cost Savings
- Min 50% reduced labor
- Real-time monitoring KPI/SLAs
- Virtual/hybrid workforce
- Automated work assignments
- HIPAA compliant
