

SparkShield
Fire Protection Services

CAPABILITY STATEMENT

Built for Resilience. Ready to Protect.

NON-WATER SUPPRESSION | WILDFIRE MITIGATION | EV & BATTERY PROTECTION | CRITICAL INFRASTRUCTURE RESILIENCE

COMPANY OVERVIEW

Most companies think about protecting buildings from fire. We think about protecting the equipment that keeps those buildings operating.

A single electrical cabinet, battery enclosure, or control panel can bring an entire facility to a halt.

SparkShield focuses on stopping fires where they start — before they become operational disasters.

DIFFERENTIATORS

MADE IN USA SuppressAll and Komodo are manufactured in the USA, supporting domestic supply-chain resilience.	VETERAN-OWNED Founded and led by veteran operators; SD-VOSB status pending with the VA.
NON-WATER, RAPID RESPONSE Up to 1,000°F reduction within 60 seconds — zero water damage, minimal cleanup.	CRITICAL INFRASTRUCTURE FOCUS Purpose-built for data centers, utilities, battery storage, and government facilities.
EV SAFETY INC EQUIPMENT DIN SPEC 91489 & NFPA 701-certified fire blankets, FireWall parking barriers, and ballistic barriers — rated to withstand 1,400°C / 2,500+°F for EV and lithium-ion fire risks.	KOMODO® FIRE RETARDANT USDA / U.S. Forest Service QPL-certified and CAL FIRE certified — PFAS-free, biodegradable, non-toxic formula for long-term wildfire and vegetation defense.

PAST PERFORMANCE

SparkShield FPS is an emerging small business actively pursuing its first federal, state, and municipal contract awards. Applied technologies (SuppressAll, Komodo, and EV Safety Inc) carry an established track record across commercial, industrial, and government-qualified use cases. Project references and a detailed capabilities briefing are available upon request.

INDUSTRIES SERVED

Utilities, Energy & BESS • Data Centers & Telecommunications • Government & Defense • Transportation (Trucking, Marine, Rail, Aviation) • Auto Dealerships & Parking Facilities • Hospitality & Multi-Family • Healthcare, Education & Municipal • Wildland-Urban Interface Communities

COMPANY SNAPSHOT

Headquarters: Coeur d'Alene, ID

Mailing Address: 3135 N. Summer St., Buckeye, AZ 85396

Geographic Reach: Western U.S. Focus | Nationwide Capability

UEI: USBRMMQXRZH5

CAGE Code: 22D58

SD-VOSB: Pending

Ownership: Veteran-Owned

PERTINENT CODES

NAICS Codes (proposed — verify in SAM.gov):

- 238220 – Plumbing, Heating & A/C Contractors
- 115310 – Support Activities for Forestry
- 423850 – Service Establishment Equip. & Supplies Wholesalers
- 423990 – Other Misc. Durable Goods Wholesalers
- 423610 – Electrical Apparatus & Equipment Wholesalers
- 238990 – All Other Specialty Trade Contractors

CORE COMPETENCIES

NON-WATER SUPPRESSION

SuppressAll® aerosol systems for data centers, utilities, BESS, and electrical rooms.

WILDFIRE MITIGATION

Komodo® fire retardant for utility corridors and Wildland-Urban Interface defense.

EV & BATTERY PROTECTION

EV Safety Inc fire blankets and barriers for lithium-ion and EV fire risks.

CRITICAL INFRASTRUCTURE RESILIENCE

Risk assessments, compliance documentation, inspection & maintenance programs.

CERTIFICATIONS & STANDARDS

- USDA / USFS QPL (Komodo) • CAL FIRE Certified
- NFPA-Compliant & UL 2775-Aligned (SuppressAll)
- EPA SNAP Listed • Zero ODP / GWP • PFAS-Free
- DIN SPEC 91489 & NFPA 701 (EV Safety Inc)
