WE INVITE EVERYONE TO ENJOY A MIXTURE OF INTERNATIONAL & LOCAL ARTISTS CELEBRATING NATURE WHILE ENGAGING IN A PROGRAMME OF LIVE MUSIC, ACTIVITIES, FOOD & DRINK

ART OF PROTEST CURATOR

At the heart of Art of Protest is placemaking. Acomb Fest has a theme of 'Returning to Nature' to bring together, art, nature and communities. Having spoken to over 1100+ residents, 9 local schools to understand Acomb's rich tapestry of history, flora and wildlife.

This is a celebration of international and local artists, the beloved High Street and green spaces. Art of Protest have curated an incredible set of art and activities.

Every day we are changing the world, and our actions create ripples around us, making waves for others in the future. I have found that nature has a funny way of connecting and reminding us that whatever we feel (an issue or a stress) can be re-grounded by a returning spring, the simple buzz of a bee and the sound of a tweeting bird.

Art of Protest have curated the artist briefs each

themed on how nature interacts with us on a day to day basis. We thank everyone for creating and supporting this important festival. Please explore the incredible art, venues and green spaces!

— Jeff Clark, AOP Curator.
