GREEN ARROW CAPITAL ANNOUNCES THE SIGNING OF A BINDING AGREEMENT FOR THE SALE OF THE TURATTI GROUP TO GROTE COMPANY FAMILY OF BRANDS

The transaction marks the successful conclusion of the growth journey undertaken by Taste of Italy, a fund within the perimeter of Green Arrow Capital Alternative Funds SGR, supporting the global leader in the design and manufacture of technologies for the food processing industry

Rome, 2 September 2026 – Green Arrow Capital, the leading independent financial manager active in private markets and alternative investments in Italy, and among the top players in Europe with 8 billion euros in assets under management, announces that, through Taste of Italy **("the Fund")**, a fund within the perimeter of Green Arrow Capital Alternative Funds SGR, it has signed a binding agreement for the sale of 100% of the Turatti Group to Grote Company Family of Brands, a leading US provider of machinery and services for the food processing industry.

The transaction marks the successful conclusion of a growth journey during which the Fund supported Turatti through a significant phase of industrial and managerial development. Throughout the investment period, Taste of Italy worked alongside the management team to strengthen the Group's organisational structure, including through the acquisition of Tecnoceam and the development of a new production headquarters designed and built in accordance with the highest ESG standards. The Fund also supported the Group's development plan aimed at strengthening its international footprint and consolidating its position as a leading player in its target markets.

Founded in 1978 and headquartered in Cavarzere, Venice, the Turatti Group is a leading designer and manufacturer of machinery and complete production lines for the food industry, with more than 40 years of experience serving the fresh-cut produce, frozen vegetables and ready-to-eat food sectors.

The Group, which comprises the Turatti, Tecnoceam, VGC and RS Tecnology brands, develops turnkey solutions covering the entire production process, including washing, cutting, drying, trimming, sorting, handling, fruit and vegetable processing, mixing and batch processing for customers worldwide. Through its facility in Salinas, California, Turatti serves some of the world's leading food processing companies, distinguishing itself through technological innovation, engineering expertise and its ability to develop customised solutions tailored to customers' needs.

As part of its next phase of development, Turatti will join the US-based Grote Company Group, with the aim of further expanding its ability to provide integrated solutions to food processors across Europe and North America, leveraging the complementary expertise, broader product offering and global footprint of the Grote Group Company Family of Brands.

Pierluca Antolini, Taste of Italy Senior Advisor (Green Arrow Capital Alternative Funds SGR), commented: "*Turatti's journey over the past few years is a tangible example of the Fund's and Green Arrow Capital's ability to create value through a strategy focused on sustainable growth, industrial development and the enhancement of Italian excellence. From the outset of our investment, we have worked alongside the management team to support the company's evolution, strengthen its international positioning and enhance its technological and industrial assets. I would like to thank Chairman and CEO Enrico Gribaudo and the entire Turatti management team for their commitment and shared vision throughout this journey. We are confident that, by joining the Grote Company Family of Brands family, Turatti will be able to successfully continue its international growth journey in the food and foodservice sectors*".
